The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE is issued every Satur day morning, with the latest news up to midnight of Friday.

Entered at the Post Office at New York, N. Y., as second-class mail matter.

TERMS OF SUBSCRIPTION-PAYABLE IN ADVANCE:

| For One Y | ear (inc | luding posta | ge) | \$ | 310 | 20. |
|-----------|----------|--------------|------------------|-----|-----|-----|
| For Six M | onths | do | | | 6 | 10. |
| Annual su | bscripti | on iu London | (including posta | ge) | £2 | 78. |
| Bix mos. | do | do | do | | 1 | 88. |

Subscriptions will be continued until ordered stopped by a written order, or at the publication office. The Publishers cannot be responsible for Remittances unless made by Drafts or Post-Office Money Orders.

Advertisements.

Transient advertisements are published at 25 cents per line for each insertion, but when definite orders are given for five, or more, insertions a liberal discount is made. Special Notices in Banking and Financial column 60 cents per line, each insertion.

London and Liverpool Offices

The office of the CHRONICLE in London is at No. 74 Old Broad Street, and in Liverpool, at No. 5 Brown's Buildings, where subscriptions and advertisements will be taken at the regular rates, and single copies of the paper supplied at 1s. each.

WILLIAM B. DANA & CO., Publishers, 79 & 81 William Street, NEW YORK. POST OFFICE BOX 4592.

A neat file cover is furnished at 50 cents; postage on the same is 18 cents. Volumes bound for subscribers at \$1 20. A complete set of the COMMERCIAL AND FINANCIAL CHRONICLE-July, 1865, to date-or HUNT'S MERCHANTS' MAGAZINE, 1839 to 1871, can be obtained at the office.

THE SITUATION.

The buoyancy of tone at the Stock Exchange which began on Wednesday of last week has met with no serious check. Operations have since been conducted with an apparent feeling of confidence, and the volume of transactions has been large. For the week ending October 16, however, the bank exchanges in the principal Atlantic cities showed a notable decline as compared with the corresponding week in 1879. The Public gives the percentage of decrease as 13.2 per cent in New York, 0.1 per cent in Boston, 18 per cent in Philadelphia, and 20.4 per cent in Baltimore-while Chicago, Cincinnati and St. Louis all showed an increase of 25 to 35 per cent in their clearings.

the whole country for the month of September, just issued by the Bureau of Statistics, was as follows:

| | Septe | mber. | Nine Months. | | |
|------------------------|---------------------------|----------------------------|-----------------------------|------------------------------|--|
| | 1879. | 1880. | 1879. | 1880. | |
| Breadstuffs Provisions | \$35,828,848 6,575,168 | \$23,881,936 11,271,851 | \$176,399,946 81,919,055 | \$208,679,542 103,722,559 | |
| Total | \$12,404,016 | \$35,153,787 | \$258,319,001 | \$312,402,101 | |

In regard to the drain of gold from Europe towards this country, the recent movement has been, in the main, from France, and at no time have the London bankers appeared to be seriously apprehensive of any trouble in their market. The Bank of England this week makes a gain of £347,000 in bullion, and the percentage of reserves is up to 483. The Bank of France has lost heavily, viz.: in the week ending Oct. 7, 21,790,000 francs gold, and 3,681,000 francs silver; Oct. 14, 80,710,000 francs gold, and 2,874,-000 francs silver; Oct. 21, 22,970,000 francs gold, and 1,210,000 francs silver; total in three weeks, 125,470,000 francs gold, and 7,675,000 francs silver, or equivalent to more than \$26,000,000, which, according to the cable reports, has gone in part to the United States, to England, to Austria, and to Egypt. But there appears to be no particular timidity in the Paris markets, as three per cent rentes were quoted yesterday at 85 francs 75 centimes, against 86 francs 721 centimes about the first of September.

In railroad affairs, the conference in New York between the officers of the Chicago Burlington & Quincy and the Wabash St. Louis & Pacific has been the matter of chief interest. A conditional treaty of peace between these great corporations was the result. A circular has also been issued by the Atchison Topeka & Santa Fe, positively announcing the opening on Jan. 1, 1881, of a new line via the Southern Pacific to San Francisco, and inviting merchants to hold back their shipments of goods till the new line is open. The circular is early, as 150 miles of track are yet to be laid, but it is very suggestive, as the opening of a new Pacific route will not only mark a new era in the railroad history of the country, but will also give practical point to the wide railroad building in 1879 and 1880 west of the Missouri River, by presenting the inevitable and much-desired result of healthy competition.

RAILROAD EARNINGS SECOND WEEK OF OCTOBER.

Railroad earnings for the second week of October not only maintain the ratio of increase that has been reported all along, but make a still further improvement. Twentyfive roads have thus far been received and these show a gain of 30 per cent on the exceptional figures of last year For the first week in October the gain was but 26 per cent. The value of exports of breadstuffs and provisions from While being better in the average, the increase is also much more general than for the previous week. It will be noticed that among the roads below there is not a single one that shows a decrease. For the first week there were five that had a decrease. The St. Louis Iron Mountain & Southern, for instance, which last week reported a falling off of \$4,346, owing in part, no doubt, to the backwardness of cotton in Arkansas, this week reports a small increase—\$2,990 namely. In reference to all roads, but to the Iron Mountain in particular, it should be remembered that the receipts last October were very heavy. Following are the figures in detail.

EARNINGS SECOND WEEK OF OCTOBER.

| | 1880. | 1879. | Increase. | Decrease |
|--|-----------|-----------|--------------------|----------|
| | \$ | | | * |
| Burl. Cedar Rapids & Northern. | 48,098 | 38,125 | 9,973 | |

| Scioto Valley | 100 | 100 | |
| Scioto Valley | 1,817 | 1,557 | 260 |
| Total | 16,799 | 14,284 | 2,515 |

The increase in mileage is 17 per cent, against 30 per cent in earnings, leaving a margin of 13 per cent attributable to the growth in the volume of traffic. It will be seen several roads report handsome gains, though operating no more mileage than last year. Chief among these are the Chicago & Alton, the Cleveland Columbus Cincinnati & Indianapolis, the International & Great Northern, and the St. Louis Alton & Terre Haute main line. It is on such roads that the forces at work to swell railroad receipts are most pointedly shown. Large crops, good rates, an augmented passenger movement, and an expansion in the volume of general freight, with more return traffic, are the influences to which we are indebted for the present earnings, and just so long as they remain in operation is the future full of hope and bright with the promise of continued gains.

AMERICAN PROVISIONS—OUR LARGE EX-PORTS.

One of the features of our foreign trade is the increase in the exports of provisions. Prices of both lard and bacon are from 25 to 30 per cent higher than at this time last year, and have been for some months past, and yet the foreign shipments are in an important ratio larger than in 1879. The exports of bacon and hams from the seven principal shipping ports on the Atlantic seaboard, from November 1, 1879—the beginning of the season-up to October 9, approximated 750,000,000 pounds, an increase of 21,000,000 pounds compared with the previous season; and of lard the excess over last season is nearly 50,000,000 pounds; while the value of our exports of these three items for the seven months ending September 1, of this year, was no less than \$54,636,407, or an increase of about 14 per cent compared with the same period in 1879. The exports of pork and beef also show a noticeable increase.

It is an interesting and at the same time a significant fact, that we are now exporting provisions in large quantities to ports to which we never exported at all until within a few years. The low prices for three years past greatly increased the consumption of bacon and other cut meats among the poorer classes of Europe who had before subsisted largely on cereals and vegetables; and such is the improved condition of the masses of the old world this year that despite the materially higher prices which have prevailed for six months past our export trade in meats is steadily increasing. The increase in the consumption of bacon, for instance, is particularly noticeable in Germany, in Sweden, in many ports on the Baltic, and in Southern Russia. It is also noticeable that our home consumption of hog products is on the increase, and this year it has been larger than for many years past, especially in the South and Southwest, where, indeed, it it said to be larger than ever before.

The number of hogs packed at the principal points in the West since last November, has reached the unprecedented total of 11,745,630. This may be regarded as sufficient evidence that the present prices are profitable to the packer, though such has not always been the case of late years. The hog-packing industry is a great and growing source of wealth, which is steadily increasing the earnings of the great carriers of the West, and promises to prove a valuable addition to our exports of cotton, breadstuffs and petroleum in keeping the balance of the foreign trade in our favor. As a single illustration of the increase in this branch of trade, the case of Chicago, the principal mart, may be cited. In the season of 1862-3, the number of hogs packed there was only 970,264, and as late as 1870-1 it was but 918,087, an actual decrease; while during the short period extending from March 1 to October 6 of the present year it reached the imposing aggregate of 2,570,000.

The present high prices, compared with former years, are the result partly of speculation and partly of the unprecedented foreign trade. The speculation in pork at Chicago, which caused an advance of 100 per cent in a few months, necessarily affected the prices of cut meats, though not in an equal degree; and the uninterrupted activity of trade has alone served to make the advance permanent.

It has been pointed out that New York has not had her share in this large increase in the foreign trade in provisions, and an examination of the statistics confirms this statement in part. It is true that the exports of some provisions from this port show a decrease compared

[†] Week ended Oct. 15.

with last year, notwithstanding the increased movement from the country at large; but it is equally true that the foreign shipments from New York of lard, for instance, show an important increase, and that our merchants have had a fair share in the increased distribution to home consumers. Not that it is here sought to evade the fact that the provision traffic of New York is being injured by the custom, which has grown up of late years, of sending provisions from Chicago to Liverpool, by way of New York, Boston or Montreal, on through bills of lading; but the evil, if it threatens to assume alarming proportions, has failed to do so as yet, and it is well known that many of the large exporters here prefer to pay the local rates of freight from Chicago to New York-thus waiving the advantage of a lower rate on through bills of ladin ; -- in order that their inspectors may inspect their consignments before they are sent abroad.

THE BOSTON SHIPPING CONVENTION.

The National Shipping Convention, held in Boston week before last, is noticeable because of the great importance of the subject-matter, and because the convention was in one sense a representative body, that is, the majority of the persons composing it are actually interested in ship property or are engaged in constructing or in moving ships. The meeting was held for the express purpose of discussing measures for the preservationor, more accurately, for the restoration-of the business of building ships and carrying merchandise.

It may not be amiss to briefly state the extent of the decay in American carrying trade before speaking of the recent convention particularly. Between 1864 and 1879, American tonnage entered at our seaports from foreign countries increased 28 per cent; foreign tonnage increased 200 per cent; of steam vessels from foreign ports, 153,200 tons were American in 1864, 836,400 in 1870, and 1,118,400 in 1879; foreign steam tonnage thus arriving was 729,700 in 1864, 1,680,700 in 1870, and 5,363,000 in 1879. Of about five millions aggregate tonnage entering from foreign countries in 1860, two-thirds was American; in 1865, the aggregate itself having materially diminished, 42 per cent was American; in 1870, of 6,270,000 tonnage, 39 per cent was American; in 1875, of 9,143,000, less than 32 per cent was American; and in 1879, of 13,768,000, the aggregate having nearly tripled since 1860, the American was 22 per cent. The descent has been, 66, 42, 39, 32, 22. The aggregate tonnage entering in the foreign trade has increased 160 per cent since 1860, but the absolute American tonnage so entering has actually declined. In 1830, American vessels carried 90 per cent of our combined imports and exports; now they carry about 25. They now carry little more value in imports than they carried in 1850, and a smaller value in exports than they did in 1860. The entrances and clearances for 1878 and 1879 in the foreign trade of this country compare as follows.

| | Ame | American. | | Total. | | American. |
|--------------|-----------------|------------------------|------------------|--------------------------|-------|-----------|
| | Number. | Tonnage. | Number. | Tonnage. | No. | Tonnage. |
| 1878 1879 | 10,208 9,093 | 3,641,883 3,350,853 | 31,553 33,394 | 15,808,196 17,300,000 | 32.40 | 23.05 |

It would be impossible to add force and vividness to

foreign commerce is greatly increasing and is now at a heavier rate than was ever known before, our carrying trade gets no growth out of it. The changes in the ratios, to be sure, might show only that the foreign share grows more rapidly than the American. This is true; but while the foreign share grows upward the American grows downward, for the American carrying business dwindles not only relatively but in absolute amount.

Such is the trouble—the disease—which everybody in the United States deplores more or less and desires to remedy. The remedies proposed to Congress by the Boston Convention may be summed up in a single phrase-assistance from the general government. But such proposed assistance is not exclusively bounty and It is in three forms: an indirect assistance by removal of sundry statutory hindrances; direct assistance by remission of several present forms of taxation on ships in using; and one of still more direct and positive assistance in the long-advocated form of subsidies and bounties. As the form of aid, the resolutions adopted ask the repeal of the existing law requiring three months' advance of wages to seamen, and some other provisions relative to seamen are recommended, so that our laws may more nearly agree with those of other nations; next, the abolition of compulsory pilotage and of the office of United States Shipping Commissioner; next, that the laws relative to life-saving apparatus on vessels engaged in carrying passengers be so amended as to make the requirements uniform for both American and foreign vessels; next, that Congress and the State Legislatures so amend existing laws as to limit the personal liab lity of shipowners for debts incurred by vessels to the amount of their ownership in all cases, and only in proportion to such ownership; next, that the consular system be immediately revised, so that it may as nearly as practicable conform to that of Great Britain; finally, that Congress create a new Department of Commerce, whose head shall have a seat in the Cabinet.

We group these recommendations together because they represent indirect and non-pecuniary aid, neither asking anything to be taken out of the Treasury nor that any material taxation be remitted. We cannot stop to discuss them at length, but only remark that, in the main, they seem unobjectionable. To the last named, however, we must decidedly object. There is no more to be said for such a step-indeed there is less to be saidthan for the "erection" of the already existing Department of Agriculture into the dignity of "Cabinet" membership. Commerce-again let us remember, not the same as the carrying trade-is no more important than agriculture, manufactures, education and mining, and the "bureau" business is too dangerously expansive to be suffered to get loose again. The remission of some present taxes is asked also, thus: exemption of ships engaged in the foreign trade from all taxes other than by the United States; the measurement of vessels by cargo capacity only; permission to take out of bond, duty free, foreign goods when they are to be used as stores for ships engaged in the foreign trade and sailing to and from the Pacific ports. To the first of these three we conceive no objection, inasmuch as it falls within the evident rule that foreign trade, being of national concern, should not be left within the taxing power of the State which contains the seaport; nor would we oppose the others.

The third class of recommendations is the main one, and it is that the Treasury shall be opened for the aid of this comparison. Although, as everybody knows, our shipping to any extent necessary. First, we have the old scheme, subsidy, by paying to steam lines of American ownership and construction proper sums for mail service, because such lines cannot otherwise compete with the subsidized lines of other nations. Next, a bounty is asked upon both sail and steam vessels for a given number of years on all vessels under fifteen years of age, and that all customs dues (tonnage taxes from all vessels whatever being included) be set aside as a special fund for paying bounties to American shipowners.

This long list of resolutions thus brings the subject to the same old position-a demand for the restoration of American shipping at the general expense. It is unnecessary for us to speak of this at length, for the views of this journal as to relying upon the remedy of government assistance are well known to all its readers. The ships to be favored are still to be American-built, not merely American-owned, and the repeal of the stupid navigation laws is carefully not recommended. The ship-running interest is still to be banned and suppressed, in the imaginary service of the ship-building interest. It is still held to be better that Europe should carry the goods and take the freight money, than that any ship which was not built in this country should fly the American flag. As a piece of patriotic punctilio, those who favor this ought to refuse to be pulled out of the water by a foreigner, for it would obviously be better to drown than to owe rescue to anything "foreign." Half a loaf is still worse than no bread at all, and until we can build ships profitably we will not run any. This is the position-only the necessary condition of profit is to be supplied by the Treasury. Until the removal of this foolish obstructiveness in our laws is made acceptable, all propositions otherwise should cerainly come to nought.

POLITICAL AFFAIRS IN FRANCE.

During the course of the last week the news from the French capital has been almost more than usually lively and interesting. Sprightliness is a prominent characteristic of the French people-a characteristic which is as noticeable in their political as in their social life. Day by day we obtain fresh evidence of this fact. On the surface of politics there is no calm, no repose. If there is not one all-absorbing question there is another; and it is well if there is only one such question at a time.

The questions which, at the present moment, are claiming and receiving attention are numerous. The nation is again stirred to its centre by the renewed efforts of the Government to enforce the decrees against the unauthorized religious orders. Jesuits, who had returned to their work under disguise, have been hunted up and brought afresh under the power of the law. Barnabites and Carmelites, who had been indulging the hope that they would be left unmolested, have been suddenly surprised and compelled to share the fate of the Jesuits. The chief dignitaries of the Church have interfered, proclaimed the good deeds of the secret societies, and claimed for the Church generally that it has done nothing to merit the severe treatment which it has received and is still receiving at the hands of the Government. The Government, however, will not listen; and Gambetta's paper ridicules the claim thus made, and reiterates the charge that the attitude of the Church toward the republican Government has been "prompted by monarchial prejudice and political rancor."

This, however, is not all. In the midst of the present excitement, consequent on the execution of the decrees, the Bonapartists have begun to reveal some signs of remaining vitality. Happily or unhappily, however, they are Many predictions have proved false. During the first

not agreed. The more go-ahead of the party are impatient of the tactics of Prince Napoleon, and demand that he give place in favor of his son, Prince Victor. Prince Napoleon, in his reply, has shown that he is in no mood to yield to such a demand; and it may safely, we think, be taken for granted that so long as the Imperial crown is so far out of the way of his actual grasp he will not renounce or transfer to another the empty honors. Prince Napoleon, who knows France and the French people as well as any man living, knows that the time is inopportune for Bonapartist agitation. The dismissal of Gen. de Cissey from his post in the army, although not likely to become more than a mere personal question, must be included among the incidents of the time, all the more so that it demonstrates the strength and purpose of the Government, and gives a certain amount of piquancy to the situation. Communism is still active in the Belville section of Paris; but the sentence passed upon M. Felix Pyat shows that extreme radicalism is but little likely to find favor with the men now in power.

Such are the prominent features of the French politics of the hour. If it must be admitted that some of the features are sufficiently suggestive of life, it must also be admitted that none of them are greatly fitted to inspire alarm. There is something extremely audacious in the Government's treatment of the Church. Nothing so bold has ever before in times of internal quiet been attempted in France. Severe laws have been enacted and harsh measures have before now been adopted against the Church; but since the exceptional times of the First Revolution and the First Republic, when society was wild and chaotic, no such vigor and determination have been evinced in giving effect to legisla-It is a hopeful sign for the republic that it feels itself strong enough to confront the Church fearlessly and to force submission. There can be no denying the fact that the Church has given but cold sympathy to the present republic. It was not safe to attack from the bishop's chair or from the pulpit or from the altar; for such manifestation of feeling could not escape undetected. But in the Jesuit institutions and in the institutions of the other secret orders, where the Government had no surveillance, the Church was at liberty to say and teach what it thought fit. And it is notorious that in most of those institutions the teaching which was given and the sentiments which in various ways found expression were hostile to the republic. In view of this fact the suppression of the Jesuit and other unauthorized institutions must be regarded, from the stand-point of the republic, as an act of self-preservation.

There ought to be no difficulty between the Church and the State; and, if through the firmness of the present Government of France, the two are brough into harmonious relations, without any undue humiliation on the one hand or any sacrifice of the true principles of liberty on the other, the gain will be a lasting one for the French people. It is the Church which has always made the restoration of monarchy an easy possibility. With such harmonious relationship established between the priesthood and the Government, the chances of a restoration of either the Bourbons or the Bonapartes will be reduced to a minimum. The struggle between Church and State is not yet ended; but the presumption is already warrantable that the Church will be compelled to yield. If Jesuits will teach, their schools must be open to Government inspection.

It is gratifying to find that after ten years of trial the French republic shows so many signs of vigorous health. few years of its existence the spectres of monarchy and of empire seemed ever to be present. Of late these spectres have almost wholly vanished from view. The nation has become prosperous almost beyond example. Recent statistics give a most encouraging view of the trade of the country, both exports and imports having greatly increased. France, in fact, has all but completely recovered from the effects of the war. A few years more of domestic tranquillity, with no foreign entanglements, and she will resume her once proud position among the greatest of the nations. With the experience of the last ten years to guide us, we have no reason to doubt that such wisdom as is necessary to secure this result will be found at the helm of affairs.

[From our own correspondent.]

London, Saturday, October 9, 1880.

There has been a fair demand for money during the week, but there has been no unusual activity, notwithstanding that some heavy payments are usual at this period of the year. The "fourth" of the month, which in the month of October is frequently heavy, has scarcely affected the money market, the mercantile demand for accommodation being generally very light. Neither have the movements in gold attracted any considerable amount of attention. A few parcels of that metal have been withdrawn from the Bank during the week, and the imports from abroad and from our colonies have also been absorbed by the export inquiry. The money market, however, remains stationary, but there is an impression, which has, indeed, been entertained for some time past, but which has not yet become a reality, that the directors of the Bank of England must soon be compelled to raise their rates of discount. That view of the future of the money market is still held by many, notwithstanding that the Bank of Germany has lowered its quotation this week from 51/2 to 5 per cent. A rise here from 2½ to 3 per cent would be a matter of very little consequence, and it is very certain that it would have no effect in checking the export demand for gold. The directors of the Bank of England may still prefer therefore to remain at 2½ per cent, as the open market is working below them and obtaining the largest proportion of the discount business in progress. The supply of bullion held by the Bank of England is large, viz., £27,361,588, against £34,094,924 last year. The falling off is considerable, but the fact must be borne in mind that the supply held in 1879 -was abnormally large, and was in excess of reasonable requirements. The same process of reduction is not desirable now, as the supply of bullion would then be little more than £20,000,000; but there is no pressing demand, and there appears to be no great necessity for adopting measures with a view to restrict it. During the last six weeks, the Bank has lost about £1,200,000 in gold; but a good deal of this has been absorbed recently by the provinces and will probably be returned before long. Trade also is very quiet, and shows no indications of showing any great revival this year. It is, however, as the Board of Trade returns bear witness, of a fairly extensive character, very free, on the whole, from speculation, and, it is thought, not unattended by moderate profits. Whatever may be the disappointments, commercially, attaching to

the year 1880, it is safe to say that the business conducted has been considerably larger than in recent years, and would probably have been larger had it not been for the elections and political complications abroad and, to some extent, at home. The Eastern difficulty is just now a serious impediment to active business; but an optimist view of the situation is taken by the majority, though with them there is a strong feeling of anxiety. Should this difficulty be happily arranged, many orders for goods now in abeyance will be given out, and the year may yet terminate, if not with a brisk trade, at all events with good hopes for the future.

The dividends on the public funds have been paid this week and the supply of money has somewhat increased; but there has been a fair demand for accommodation and very little change has taken place in the rates of discount. Mercantile paper is by no means abundant, and the requirements of the country for financial purposes are very moderate. The rates of discount are therefore easy, as follows:

| $\begin{array}{llllllllllllllllllllllllllllllllllll$ |
|--|
| |

The rates of interest allowed by the joint-stock banks and discount houses for deposits are subjoined:

| | cene. |
|------------------------------|---------|
| Joint-stock banks | 112 |
| Discount houses at call | 119 |
| Do with 7 or 14 days' notice | 13 |

The following statement shows the present position of the Bank of England, the Bank rate of discount, the price of Consols, the average quotation for English wheat, the price of middling upland cotton, of No. 40 mule yarn, fair second quality, and the Bankers' Clearing House return, compared with the three previous years:

Tenders were received at the Bank of England on Wednesday for £1,515,000 in English Treasury bills. The amounts allotted were—in bills at three months, £1,095,000; do. at six months, £420,000. Tenders for bills at three months, at £99 10s., will receive in full; and at six months, at £98 14s. 6d., about 40 per cent; above, in full. The Government is therefore paying a fraction under two per cent for three months' bills and rather more than 2½ per cent for six months' bills.

The directors of the New London & Brazilian Bank announce a further dividend of 11s. per share—making 16s. for the year being at the rate of 8 per cent per annum.

Loans and new companies continue to be introduced to public notice, but the amounts of capital asked for is very moderate. The directors of the Ottoman Railway from Smyrna to Aidin ask for £350,000 in 5 per cent debentures, at £75 per £100 bond, to extend the company's line from Aidin to Kuyujak. Delaere's La Plate Extract of Beef Company, limited, has appeared with a capital of £100,000 in £10 shares, and the Hungarian State Gold Mining Company, limited, with a capital also of £100,000; while the British and American Mortgage Company, limited, are inviting applications for debentures for three years at 4½ per cent, and for five or seven years at 5 per cent per annum.

Gold has been in moderate demand for export, and in addition to the purchase of all supplies in the open market, about £150,000 has been taken out of the Bank. In the value of silver and dollars no material change has taken place. The following prices of bullion are from Messrs. Pixley & Abell's circular:

| THE RESERVE OF THE PROPERTY OF THE PARTY OF | GOLD. | 8. | d. | 8. | d. |

The great cheese fair was held at Frome last week, and was encouraging to farmers, as the prices current this season show a complete recovery from the great depression of last year. There is a growing opinion in Somersetshire that, notwithstanding the advantages of the cheese factory system in making good common sorts, the system practised in home dairies is preferable for producing choice and really fine varieties. Archdeacon Denison says that home-making and no artificial drying are the two principal elements of good cheese making. He says that it is almost incredible that any farmers in the Cheddar cheese country should have thrown away all their valuable monopoly by allowing themselves to be deceived by the American example of artificial drying and rapid sale. A real Cheddar cheese should not be eaten under eighteen months from date of making, and is best at two years from it. There is no country in Europe or out of it that can make prime Cheddar cheese except Somersetshire, and the Archdeacon suggests that farmers should strictly economize in order that they may regain the position they have almost entirely sacrificed. It may be added that there is seldom any lack of demand for best qualities, and, now that farmers are compelled to be more serious in contriving to make the land pay, farming operatives are more likely to return to their ancient ways, and more attention will be paid to the production of butter, cheese, eggs and poultry, and in fact all dairy produce. Farmers - surrender their notions of ease, and devote their attentics something more profitable than the cultivation of cereals.

At Newcastle-on-Tyne, yesterday, a transaction occurred which is said to be unprecedented in the history of steam-shipping on the northeast coast, and shows in a remarkable manner the serious condition of Russia as regards her wheat harvest. The steamer Gosforth was chartered to load wheat at Liverpool for Cronstadt at 11s. 6d. per ton. There were other offers in the market; 1s. 9d. per quarter was quoted at Newcastle-on-Tyne for steamer to load wheat at London for Cronstadt, but there were not any takers.

The Board of Trade returns for September, and for the nine months ended September 30, have just been issued, and they again compare favorably with last year. The following are the leading particulars:

| | 1878. | 1879. | 1880. |
|----------------------|-------------|-------------|-------------|
| Imports in September | £27,229,581 | £27,723,428 | £34,275,327 |
| Imports in 9 months | 282,616,072 | 259,346,232 | 309,907,762 |
| Exports in September | 15,561,382 | 17,402,242 | 20,027,347 |
| Exports in 9 months | 144,926,177 | 140,176,165 | 167,019,777 |

The following have been the movements in bullion in September and during the nine months:

| | GOLD, | | |
|---|-----------------------|------------------------|----------------------|
| | 1878. | 1879. | 1880. |
| Imports in September | 2,444,662 | 1,317,223 | £. 1,115,556 |
| Imports in 9 months Exports in September | 12,125,272 494,366 | 11,925,977 $1,997,195$ | 5,663,080 942,553 |
| Exports in 9 months | 12,261,826 | 8,330,165 | 5,679,430 |
| | SILVER. | | |
| Imports in September | 561.166 | 784,994 | 475,776 |
| Imports in 9 months | 9,082,703 | 8,593,539 | 4.960.812 |
| Exports in September | 671,286 | 905,154 | 417,995 |
| Exports in 9 months | 8,979,006 | 8,314,063 | 5,751,089 |
| TO | TAL GOLD AND | SILVER. | |
| Imports in September | 3,005,828 | 2,107,217 | 1,591,332 |
| Imports in 9 months | 21,207,975 | 20,519,516 | 10,623,892 |
| Exports in September | 1,165,652 | 2,902,349 | 1,360,548 |
| Exports in 9 months | 21,240,832 | 16,644,228 | 11,430,519 |

The exports of gold to the United States in September were £661,360, against £1,884,195 last year; and in the nine months £1,451,438, against £2,516,775.

The trade for cereal produce during the past week has been decidedly firm, and, although no activity has been apparent, a good business for consumption has been transacted at a further advance in prices of fully 1s. per quarter. The chief improvement has been in white wheats, but those descriptions showed a short time back the greatest proportion of depression, and it is natural, therefore, that the recovery in them should be the greatest. The improvement in the condition of the wheat trade has certainly occasioned no surprise. Prices had fallen to a low point, and it was obvious that as long as the trade showed indications of weakness, millers would be unwilling to purchase in excess of their actual requirements. A termination to

that condition of things was, however, inevitable, and as soon as the average price of home-grown produce fell below 40s. per quarter buyers began to perceive that the lowest point had probably been reached, and that it was a judicious movement to buy. It may be observed in passing that this season the average price of home-grown produce is to be more relied upon as a test of actual value, as the quality of the supplies coming to market is very much superior to last year's. It is well known that last year's low average for home-grown wheat was due to the great inferiority of the crop, and not so much to any actual depression in the trade. With so low an average as 40s. per quarter, and even less, millers could scarcely be far wrong in replenishing their exhausted stores, and it is to this movement that, in a very great measure, the present firmness of the trade is to be attributed. Millers are undoubtedly purchasing with a great degree of caution, and this is obvious from the fact that prices have not experienced any great improvement, more especially as the improvement has been from a very low point. Their opinion is that the present firmness of the trade will speedily have the effect of stimulating exports from America and other producing countries, but should it fail to have that effect a further advance will be necessary. Though making more liberal purchases, they are still disposed to buy cautiously, and not to accumulate a large stock at too rapid a rate. Very probably, when a fair working stock has been acquired, the trade will relapse into a quiet, though steady condition.

It has been estimated that the quantity of home-grown wheat available for consumption is about 10,000,000 quarters, and that about 14,000,000 quarters will have to be imported from abroad

It has been estimated that the quantity of home-grown wheat available for consumption is about 10,000,000 quarters, and that about 14,000,000 quarters will have to be imported from abroad in order to meet our requirements. These figures are no doubt sufficiently accurate for all practical purposes, but this fact remains: that if we import only 14,000,000 quarters, our stocks at the close of the season will remain where they were at the commencement, viz., at a minimum point. With prices as low as they are at present, millers will undoubtedly be inclined to speculate in a moderate way by forming a reserve sufficiently extensive to constitute a fair working stock. To accomplish this, purchases abroad will be necessary in addition to those which are required strictly for consumption, and, should the weather remain unpropitious for autumnal field work, those purchases may assume proportions larger than are anticipated at present. The fact must not be lost sight of that at the close of last season, viz., at the close of Angust last, the United Kingdom and Europe were very bare of reserve supplies, and should the weather continue unfavorable for autumn sowing, which would clearly be prejudicial to next year's harvest, a still healthier demand may arise for wheat, which would lead to a further advance in prices. If American growers, upon whom we are chiefly dependent for supplies, are in a position to hold, and they appear to be capable of doing so, we may yet see a moderate rise on current prices; but opinion inclines to the belief that we shall be adequately supplied on very moderate terms. The deliveries of British farmers are disappointing, indicating that the crop has been overestimated. They show, of course, a large increase over last season, but the estimated total for the first six weeks of the season of 813,600 quarters, while comparing with only 363,580 quarters in 1879, contrasts with as much as 1,376,500 quarters in 1878 and 1,148,380 quarters in 1877. Some of the well-to-do farmers may be holding out for

crop in Great Britain in 1880 is decidedly below the anticipations which had been formed regarding it.

During the week ended October 2 the sales of home-grown wheat in the 150 principal markets of England and Wales amounted to 49,645 quarters, against 15,161 quarters; while it is computed that in the whole kingdom they were 198,580 quarters, against 60,650 quarters in 1879, 285,800 quarters in 1878, and 245,750 quarters in 1877. Since harvest the sales in the 150 principal markets have been 203,397 quarters, against 90,535 quarters; while it is computed that in the whole kingdom they have been 813,600 quarters, against 343,580 quarters in 1877. Without reckoning the supplies furnished ex-granary at the commencement of the season, it is estimated that the following quantities of wheat and flour have been placed upon the British markets since harvest. The visible supply in the United States is also given:

| is also given: | 1879. | 1878. | 1877. |

English Market Reports-Per Cable.

The daily closing quotations in the markets of London and Liverpool for the past week, as reported by cable, are shown in the following summary:

London Money and Stock Market.—The bullion in the Bank of England has increased £347,000 during the week. The reserve of the Bank of France during the same time decreased 22,970,000 francs in gold and 1,210,000 francs in silver. Last week's figures of the Bank of France which were so large as to lead figures of the Bank of France, which were so large as to lead us to suggest that possibly they were inaccurate, have been confirmed.

—The financial agents of the Homestake Mining Company, Messrs. Lounsbery & Haggin, have supplied the report of the operations of the company from January 1, 1878, to September 1, 1880. The report should be thoroughy satisfactory to the stockholders, and it reflects credit on the firm which has introduced the stock of this and other successful mining companies on the New York market. The gross product of the mine to August 31, 1880, was \$1,923,733, and with premium added, \$1,924,769. The gross receipts from all sources were \$2,172,723. Up to September 1 the dividends paid to stockholders amounted to \$600,000, and on that date the company was without any liabilities, while the assets amounted to \$149,294 of which \$107,048 was cash and bullion in transit. Last month the company paid a double dividend, amounting to \$60,000, and in a few days another double dividend, it is said, will be paid. The report is well worthy of perusal by those interested in mining properties.

—The attention of railroad officials and other parties requir-

—The attention of railroad officials and other parties requiring wrought and cast iron work of all kinds is called to the card of Messrs. J. B. & 'J. M. Cornell, of this city, as one of the oldest and most prominent firms in the trade. Many of the iron buildings, as well as the elevated railroads, now erected or in course of erection in New York have been customers of this firm. They have now under contract several prominent buildings in course of erection, among which we may name the *Post* building and the new building of the Liverpool, London & Globe Insurance Company.

—The Fidelity & Casualty Company of this city, which make a specialty of insuring railroad companies, banks, and other employers, against loss by employees, have just settled promptly a claim against them by the Equitable Life, and received from Mr. James W. Alexander, the Vice-President, a warm letter of commendation. The company also insures against injury or loss of life by accidents, and have settled promptly claims in this department, which course must commend the company to the favorable notice of all insurers. the favorable notice of all insurers.

—The New York, New England & Western Investment Company call the attention of investors to the 1st mortgage 30-year 6 per cent gold bonds of the Wheeling & Lake Erie RR. Company. Having sold a large part of the authorized amount, they now notify the public that they have advaaced the price of the remainder of these choice investments to 96 and conved interests. accrued interest.

—Parties desirons of securing the services of an experienced and reliable broker in stocks and investment bonds are requested to notice the card of Mr. Lansdale Boardman in our advertising columns. Mr. Boardman is a member of the N. Y. Stock Exchange, and was for many years with Mr. Russell Sage, who is one of the most prominent and successful operators in New York York.

BANKING AND FINANCIAL.

OFFICE OF FISK & HATCH,

No. 5 NASSAU STREET, NEW YORK, Oct 9, 1880.

We are receiving so many letters of inquiry as to the terms on which we receive deposit accounts of Banks, Bankers, Business Firms and individuals, that we find it necessary, in order to save clerical labor in replying to each separately in manuscript, to issue this circular for the general information of those who may desire to open accounts with a private banking house in this city.

We are prepared, on the terms mentioned below, to receive the accounts of responsible parties in good standing:

1. Except in the case of Banks, Savings Banks, or other well-known Corporations, or of individuals or firms whose character and standing are already known to us, we require satisfactory reference before opening an account.

2. We allow interest at the rate of 3 per cent per annum on the average monthly balances, when the same amount to \$1,000 or over. On accounts averaging less than \$1,000 for the month we allow no

3. We render accounts current, and credit interest as above, on the last day of each month.

4. For parties keeping regular deposit accounts with us we collect and For parties keeping regular deposit accounts with us we collect and credit United States, Railroad, and other Coupons and Dividends payable in this city without charge; make careful inquiries and give the best information we can obtain respecting investments or other matters of financial interest to them, and in general serve their interests in any way in which we can be of use to them in our line of business.

We do not discount or buy commercial paper, but are at all times prepared to make advances to customers and correspondents on United States bonds or other first-class and marketable securities.

All deposits are subject to check at sight without notice.

One of our firm is a member of the New York Stock Exchange, and we give particular attention to orders by mail, telegraph, or in person, for the purchase or sale, on commission, of Investment bonds and Stocks.

We continue to buy and sell direct, without commission, all issues and denominations of United States Bonds, for immediate delivery, at current market rates.

Very respectfully,

FISK & HATCH.

The Bankers' Gazette.

FRIDAY, OCT. 22, 1880-5 P. M. The Money Market and Financial Situation.—The

exuberant feeling which seemed to take possession of the stock markets last week has been continued with little intermission until to-day. The features of the present advance, however, are somewhat different from the famous boom of 1879. It is noticed somewhat different from the famous boom of 1879. It is noticed now that the stocks most easily pushed upward belong to strong companies having a large and well-established business, and many of them paying handsome dividends. The great point in the market now is the talk of scrip dividends or increased cash dividends to be shortly declared, and on this we have the rise in such stocks as Northwest, St. Paul, Michigan Central, Lake Shore, N. Y. Central, Pennsylvania, Erie preferred, and others. Last year the phases were different and trash was most in favor. Stocks and bonds that had been long in default were then most Stocks and bonds that had been long in default were then most eagerly purchased, and while the standard speculative stocks necessarily shared in the upward move the fancies were most talked of, and from their very low prices at the start showed the largest percentage of profits. Recently, the holders of stocks that have no prospects of speedy dividends have been a little disappointed that their specialties did not respond to the activity in the start of the market of the start o in the rest of the market, and the circumstance has seemed to give color to the idea that the transactions have been more for the account of large or habitual operators than for the outside

public.

The money market has been a little more active at 2½@4 per cent for call loans, closing at 2½ per cent; although a spasmodic attempt was made once to bid up money to 5@6 per cent. Prime paper is quoted at 5@5½ per cent.

The Bank of England weekly statement on Thursday showed an increase of £347,000 in specie, and the percentage of reserve was up to 48¾, against 47¼ last week. The discount rate remains at 2½ per cent. The Bank of France this week reports a decrease in specie of 22,970,000 francs gold and 1,210,000 francs silver.

The last statement of the New York City Clearing House banks, issued October 16, showed an increase of \$389,175 in the surplus over legal reserve, the total surplus being \$4,757,575, against \$4,368,400 the previous week.

The following table shows the changes from the previous week and a comparison with the two preceding years:

| | 1880. Oct. 16. | Differ'nces fr'm previous week. | 1879. Oct. 18. | 1878. Oct. 19. |
|---|---|------------------------------------|---|---------------------------|
| Loans and dis. Specie Circulation Net deposits . Legal tenders. | 67,364,300 17,629,100 302,566,900 | Dec. 944,600 Inc. 1,553,300 | 26,383,600 22,286,800 232,805,300 | 19,601,200 208,144,600 |
| Legal reserve. Reserve held. | \$75,641,725 80,399,300 | Inc. \$388,325 | \$58,201,325 | \$52,036,150 |
| Surplus | \$4,757,575 | Inc. \$389,175 | \$1,279,975 | \$4,210,750 |

United States Bonds .- Government securities, after ruling United States Bonds.—Government securities, after ruling strong and steady in the early part of the week at 10938@10936 for the four per cents, became weaker on Thursday and fell off again to-day, closing at 109@10936. It is quite natural that some re-action should take place after the rapid advance of last week, and some holders may still feel that possibly a degree of uncertainty may yet hang about the Presidential contest. At the Treasury purchase on Wednesday, the offers to sell bonds to the Government for sinking fund purposes amounted to \$4,985,100, of which \$2,500,000 were accepted, including \$1,602,650 6's of 1881, at 104'78@104'90; \$868,350 5s of 1881, at 102'83@102'92; and \$29,000 6's of 1880, at 102'56@102'68.

The closing prices at the New York Board have been as follows:

| | Interest Periods. | | Oct. 18. | Oct. 19. | Oct. 20. | Oct. 21. | Oct. 22. |

 $^{^{\}star}$ Lowest price here is for new stock, sold for first time June 11. \dagger Range from Sept. 25. $\,$; Range from July 30.

State and Railroad Bonds.—The Southern State bonds have not been active, but some sales of Virginia consols have been made for foreign account. North Carolina new 4 per cents sell at 79½, which is considered as a pretty good price, and one which shows much confidence in the promise of the old "North State." There have been some transactions in Virginia deferred bonds, and in Tennessees for Baltimore and St. Louis account. Railroad bonds have followed stocks in activity, and the prominent issues dealt in for speculative account have shown a large business at the Board, at strong prices.

The following securities were sold at auction:

Exchange.-There has been some variation in the rates for Exchange.—There has been some variation in the rates for sterling, which became weaker after our last report, and have to-day advanced again. The moderate supply of commercial bills is alleged as the main cause for firmness. Gold continues to arrive freely at this port, and over \$3,000,000 have been received this week. On actual business rates for sterling are 481%@481% for 60 days and 483%@484% for demand. Cable transfers are 484%@484%

for 60 days and 4 85% 404 64% for the mand.

484% 404 84%.

The following were the rates of domestic exchange on New York at the undermentioned cities to-day: Savannah, buying, 3-16 off, selling, par; Charleston, buying, 5-160% discount, selling par; New Orleans commercial \$1 500\$1 75 discount; bank, par; St. Louis, 1-25 discount; Chicago, 100 discount; and Boston, about 9 pence discount.

Quotations for foreign exchange are as follows:

| Oct. 22. | Sixty Days. | Demand. | | |
|---|------------------------------------|--|--|--|
| Prime bankers' sterling bills on London. Prime commercial Documentary commercial | $480^{1}2@481$ $479^{1}2@480^{1}2$ | 4 83 @4 83 lg 4 82 @4 83 | | |
| Paris (francs) Amsterdam (guilders) Frankfort (reichmarks) Bremen (reichmarks) | 3934 @ 40 | $524^{3}8@5217$ $40^{1}8@40^{1}$ $94^{7}8@95$ $94^{7}8@95$ | | |

Coins.—The following are quotations in gold for various coins:

Railroad Earnings.—The latest railroad earnings and the stals from Jan. 1 to latest dates are given below. The statetotals from Jan. 1 to latest dates are given below. The statement includes the gross earnings of all railroads from which returns can be obtained. The columns under the heading "Jan. 1 to latest date" furnish the gross earnings from Jan. 1 to, and including, the period mentioned in the second column.

Investments

STATE, CITY AND CORPORATION FINANCES.

The Investors' Supplement contains a complete exhibit of the Funded Debt of States and Cities and of the Stocks and Bonds of Railroads and other Companies. It is published on the last Saturday of every other month—viz., February, April, June, August, October and December, and is furnished without extra charge to all regular subscribers of the Chronicle. Single copies are sold at \$2 per copy.

INDEX SINCE AUGUST SUPPLEMENT.

The following is an index to all reports and 'tems heretofore published in the Investment Department of the Chronicle since the last issue of the Investors' Supplement; annual reports are indexed in

ANNUAL REPORTS.

Lake Erie & Western Railway Company.

(For the nine months ending Sept. 30, 1880.)

(For the nine months ending Sept. 30, 1880.)

A report for the nine months ending Sept. 30, 1880, has just been submitted by the President, Mr. C. R. Cummings. He says. "The present company was organized, by consolidation, Jan. 1, 1880, of the following roads: The Lafayette Bloomington & Muncie Railway, a consolidation of the Lafayette Bloomington & Mississippi Railroad, extending from Bloomington, Ill., east to the Indiana State Line; the West Division of the Lafayette Muncie & Bloomington RR., extending east from the Illinois State Line to Lafayette, Ind., and the East Division of the Lafayette Muncie & Bloomington RR., extending from Lafayette east to Muncie, Ind., and the Lake Erie & Western Railway, a consolidation of the Lake Erie & Louisville RR., extending from Fremont west to Celina, O., and the Indianapolis & Sandusky RR., extending west from Celina, O., to Muncie, Ind. The above-named roads were built as follows:

| The above-named roads were built as follows: | | | |
|--|------|--------|------|
| The Lafavette Bloomington & Mississippi | 81 | miles, | 1870 |

|---|----------------------|
| Common stock. Bonds, { First mortgage, \$327,000 } Income, 600,000 } | \$700,000 927,000 |

"The city of Lima, Ohio, having donated \$55,000 to the company, it was deemed advisable to locate our principal construction and repair shops at that place." * * * "
"In calling your attention to the following detailed statements of the operation of the property for the nine months under review, it is but proper to direct it particularly to the first five months of the year, in order that, in arriving at a correct idea of the earning capacity of the property, a wrong impression may be avoided; owing to the new line from Celina, Ohio, to Muncie, Ind., being completed late in the season, and the open and wet winter following, it was found impracticable to operate that part of the road until late in May following, thus depriving the road of a large business originating in Indiana and Illinois, which was necessarily turned off at Muncie and other connecting points to other roads. The loss ing in Indiana and Illinois, which was necessarily turned off at Muncie and other connecting points to other roads. The loss in net revenue on this account may be fairly considered as amounting to \$200,000, the net earnings for these five months amounting to but \$47,657, while for the remaining four months of the period under review they reached \$200,761. As the locomotive equipment of the road has not, up to this date, been more than sufficient to properly handle its local business, any considerable increase of business from connecting lines has not been solicited. We have purchased twelve locomotives for delivery during the current year, four of which are already in service."

The President, Mr. H. B. Hammond, remarks:

"In considering the various items of this report, proper notice must be taken of the fact that while it is of the fiscal year ending August 31, 1880, the railroad of this company, between its termini—Decatur, Ill., and Indianapolis, Ind.—was not put in operation until the 9th day of February, 1880; and that it was not in condition for the usual requirements of the traffic of a railroad until the month of April, 1880." * * * "Notice should also be taken of the extraordinary expanditures."

traffic of a railroad until the month of April, 1880." * * *
"Notice should also be taken of the extraordinary expenditures which your company has been obliged to make in renewal and betterment of the Western Division of its railroad that has been built and in operation for several years, but which, by reason of its limited facilities for doing business, has produced a revenue entirely inadequate to perfect the same as required. These expenditures, during the period covered by this report, have for the most part been those of renewal of ties, bridges and trestles, and the sum of \$17,015 has been expended in the matter of renewal of ties alone. These expenditures will have to be continued during the next year." * * * "The business of this company is in its infancy, and very much of the traffic which it must command is still undeveloped. For instance, its railroad runs through fifteen miles of territory underlaid with valuable coal, of which there has been no opening except for individual use." * * * "A traffic contract has been made for the mutual benefit of this company and the Wabash St. Louis & Pacific Railway Co., for an important interchange of traffic, extending over a long period of years, which should be a great help in developing through business. The future development of these several resources for business, with others this company possesses, must insure a large and continued increase of revenue." Notice should also be taken of the extraordinary expenditures

The stock of coal on hand at tide water shipping points Sept. 30, 1880, was 685,738 tons; on Aug. 31, 619,899 tons; increase,

Atlantic & Pacific.—Mr. George T. Wiswell is in charge of construction on this road, with office in Albuquerque, New Mexico. The track is laid from the junction with the New Mexico & Southern Pacific, Isleta (a small Indian village), 10½ miles west of Albuquerque, to the 25-mile post; the graders are 30 miles in advance of the track. It is expected to lay at the rate of a mile a day for the next 60 days.

on these bonds will cease from November 1. The amount of these bonds by the last report was \$226,900.

—At Richmond, Va., October 16, a meeting of influential citizens of Richmond, Lynchburg, Petersburg, Norfolk and other cities was held to consider the best measures to be adopted to secure a postponement of the sale of the Atlantic Mississippi & Ohio Railroad on the 2d of November. They adopted resolutions providing for a committee of five to lay before the councils of those cities a plan of combining their influence for applying for an extension for ninety days, and to recommend to the councils, as a part of their application for the extension, a contract conditioned upon said parties paying into the court at the expiration of the time of extension \$500,000, with a guarantee of the payment in full of the present outstanding indebtedness on the interest account of the company. The meeting adjourned until the 22d inst. to receive the report of the committee. of the company. The meeting adjo-receive the report of the committee.

receive the report of the committee.

Atchison Topeka & Santa Fe—Southern Pacific of California.—The Atchison Topeka & Santa Fe Railroad Company issues a circular to shippers of California freight, announcing that that road and the Southern Pacific will be completed and connected about Jan. 1, 1881. The Chicago Tribune reports that Mr. W. B. Strong, General Manager of the A. T. & S. Fe road, has lately returned from the East. Mr. Strong met Messrs. Huntington, Crocker, Towne and Stubs, of the Southern Pacific, and it was arranged that the Atchison Topeka & Santa Fe and the Southern Pacific should connect at a point about thirty miles west of the Rio Grande known as Florida Point. This point is about 100 miles east of the Arizona line in New Mexico. The Atchison Topeka & Santa Fe is now working southwest of, San Marcial and the Southern Pacific east of San Simon. A gap of about 170 miles remains to be completed to effect the junction of the two roads. effect the junction of the two roads.

effect the junction of the two roads.

Brooklyn Elevated.—Richard G. Phelps of Brooklyn has been appointed Receiver of the Brooklyn Elevated Railway Company, of which W. F. Bruff is President. No work has been done for some time in the structure of the road, which is put up on almost one-half of the route from Fulton Ferry to East New York, principally in Park, Grand and Lexington avenues. The Receiver was appointed by Judge Cooke, on the application of Edwin S. Keeler, one of the stockholders and directors of the company. The complaint sets forth that the property was mortgaged for \$3,500,000 to the Farmers' Loan & Trust Company, September 7, 1879; that the contract for the construction of the road was given to Robert B. Floyd Jones at \$350,000 a mile of completed structure, and also \$500,000 in the stocks of the company, but the bonds and stocks have been delivered to him before any part is completed, and President Bruff refused to give any information on the subject. The complaint asks that he be compelled to account for his disposition of the bonds and property, and that he and his associates be enjoined as directors.—N. Y. Tribune.

Buffalo Cleveland & Chicago.—This company has been

Buffalo Cleveland & Chicago.—This company has been incorporated in Ohio for the purpose of building a railroad from the Pennsylvania line by way of Cleveland and Toledo to the Indiana line. The route described is generally a few miles south of the Lake Shore road and parallel to it. The capital stock is fixed at \$6,500,000. The incorporators are nearly the same as those of the company lately organized in New York State under the same name, and the intention is to consolidate the two companies. the two companies.

Burlington & Missouri River in Neb.—The eastern division of the Republican Valley line is completed and opened for business to Harbine, Neb., thirteen miles east of the late terminus at Hardy and forty-one miles from Red Cloud.

Central Pacific.—An abstract of this company's returns for 1879 was published in the Chronicle, Vol. 31, p. 151. The pamphlet report for 1879 is just out, and contains the usual statement of earnings and operating expenses (monthly) for the six months ending June 30th for the years 1879 and 1880.

Chicago Burlington & Quincy—Wabash St. Louis & Pacific.—The conference in New York between the officers of these companies, which took place this week, resulted in an informal agreement that the proposed Wabash line to Shenandoah shall be built in common by both the Wabash and the Chicago Burlington & Quincy, provided that the Iowa Missouri & Pacific line (the Wabash extension) can be taken out of the hands of the two trustees, Messrs. Thomas Thatcher and J. J. Slocum, which might be done by allowing the trustees to complete the road, and the C. B. & Q. Company to pay the Wabash for half the cost. for half the cost.

Atlantic Facilic.—If. George T. Wiswell is in charge of construction on this road, with office in Albuquerque, New Mexico. The track is laid from the junction with the New Mexico & Southern Pacific, Isleta (a small Indian village), 10½ miles west of Albuquerque, to the 25-mile post; the graders are 30 miles in advance of the track. It is expected to lay at the rate of a mile a day for the next 60 days.

Atlantic Wississippi & Ohio.—The Receivers give notice that the Virginia & Tennessee 8 per cent interest funding bonds, which matured July 1, 1880, will be paid on and after October 20, on presentation at their office, in Lynchburg, Va. Interest

trains at Pierre—dispatch coaches to Deadwood in sufficient numbers to accommodate all through passengers. Through cars will be run between Chicago and Pierre, thus necessitating but one change between Chicago and Deadwood in either direction, an advantage that no other line can even approach. In the matter of distance this line will stand without a rival, as will be seen by the following figures: Chicago to Pierre, 780 miles, all rail; stage, Pierre to Deadwood, 170 miles; total, 950 miles—a saving in distance over all other routes of from 200 to 400 miles. All classes of passengers will be allowed 150 pounds of baggage as far as Pierre. The stage company will carry fifty pounds on first and second class tickets and 100 pounds on third class.

The rates from Chicago will be as follows: To Pierre, Dakota, \$28 65 first class; \$20 second class. To Deadwood, \$49 25 first class; \$39 65 second class, and \$30 third class. First-class tickets should be unlimited; second class to Pierre, six days' limit; second and third class to Deadwood, eight days' limit.

Cincinnati Sandusky & Cleveland.—The Boston Advertiser trains at Pierre—dispatch coaches to Deadwood in sufficient num-

Cincinnati Sandusky & Cleveland.—The Boston Advertiser remarks: "In the reports of the contemplated consolidation of the C. S. & C. with the Indiana Bloomington & Western and the Columbus Springfield & Cincinnati, it is said that the Sandusky & Springfield Company get share for share in the new company and the Bloomington two for one. In addition, the two first named get \$7,500 per mile in bonds of the new company as a gratuity, which will amount to \$1,620,000. The bonds and stock of the new consolidated company will stand about as follows: I. B. & W. preferred first mortgage 7s, \$1,000,000; 3 per cents for two years (then 4 per cent for three years, 5 for two years, and thereafter 6 per cent), \$5,000,000; income 6 per cents, when earned. \$1,500,000; stock (I. B. & W.), \$3,330,000; to build new road, \$2,500,000; bonds to the two roads, \$1,620,000; new stock to Sandusky and Springfield, \$7,170,000; bonded debt and preferred stock of Sandusky, \$1,900,000; total, \$24,020,000. The whole line will be about 490 miles. The I. B. & W. earned last year, net, \$436,624; the Sandusky, \$295,000—a total of \$731,624 to meet interest on the above indebtedness."

East Tennessee Virginia & Georgia.—At a recent meeting Cincinnati Sandusky & Cleveland.—The Boston Advertiser

East Tennessee Virginia & Georgia.—At a recent meeting of the stockholders resolutions were adopted ratifying the purof the stockholders resolutions were adopted ratifying the purchase of the Georgia Southern, authorizing the purchase of the Selma Rome & Dalton, and ratifying the action of the directors in making an arrangement by which it is made possible for this road to secure control of the Alabama Central. Upon the recommendation of the Board of Directors, it was determined to increase the capital stock of the company to \$5,000,000. In making this increase they will issue to each one of the present stockholders additional stock to the amount of one and a half times the par value of the present stock, charging them at the rate of \$30 per \$100 for the increased stock.

European & North American.—On the increased stock.

European & North American.—On the application of more than one-third of the bondholders of the European & North American Railway Company, notice of foreclosure of the mortgage, by reason of default in payment of the interest, was given. Under the statute of organization the bondholders under the mortgage, their assignees and successors, are constituted a corporation. The bondholders met in Bangor, Me., October 12, for the purpose of organizing a new company to work the road. The company was organized, and it was resolved to adopt the old name for the new corporation. It was voted to issue one share of stock for each \$100 in bonds of the mortgage of March 1, 1869, and overdue coupons which may be deposited with the Treasurer, that officer to pay in cash fifty cents on the March 1, 1869, and overdue coupons which may be deposited with the Treasurer, that officer to pay in cash fifty cents on the dollar for all fractions of \$100 on each bond. The new directors were authorized to make a settlement with the trustees who have been operating the road, and the meeting then adjourned for three weeks.

Georgia Railroad.—This company makes the following statement for September and the six months of the fiscal year from April 1 to October 1:

| - | Septe | mber. | Six months | | |
|-----------------------------------|-------|-------------------------------------|-------------------------------|-------------------------------|--|
| Gross earnings Expenses | | 1879. \$85,388 58,60 6 | 1880. \$499,586 418,963 | 1879. \$366,273 304,206 | |
| Net earnings Per cent of expenses | | \$26,781 68.63 | \$80,622 83.78 | \$62,066 83·12 | |

For the six months there was an increase of \$133,312 in gross and of \$18,555 in net earnings.

Missouri Kansas & Texas.—The Union Trust Company gives the following notice to the bondholders of the Missouri Kansas & Texas Railway Company:

& Texas Railway Company:

"Notice is hereby given that the railway company have tendered the Union Trust Company, as trustee, a sum sufficient, in addition to the funds already on hand arising out of the operation of the railway, to pay off in full the two coupons at present in arrear upon the first mortgage consolidated bonds, and have asked the trustee to accept the same and concurrently therewith deliver to the railway company the property in its possession. As this offer presents a contingency not contemplated or provided for in the agreement of March 1, 1876, the Trust Company will make early application to the United States Court for instructions as to its duties under the trust. It is important that the bondholders of the Missouri Kansas & Texas Railway Company should express their wishes in regard to the disposal of the property; and they are therefore invited to call at the office of the Union Trust Company of New York, No. 73 Broadway, and signify their approval or disapproval by signing papers prepared for that purpose.

EDWARD KING, President."

Nashville Chattanooga & St. Louis.—The following statement is published, showing the earnings of the Nashville Chat-

| tanooga & St. Louis Kailway: | | |
|------------------------------|----------|---|
| Gross earnings, 1880 | | Nine months \$1,513,099 1,271,022 |
| Increase in 1880 | \$10,110 | \$242,077 |

The operations of the road for September showed net earnings of \$26,465. The board of directors having ordered the construction account closed, there was charged to operating expenses in September, 1880, \$46,405, which in previous years was charged to construction account.

The result for the quarter ending September 30 was:

| Gross earnings. Operating expenses. | \$488,394 336,565 |
|--|----------------------|
| Net earnings. Taxes and interest on bonded debt | \$151,828 116,061 |
| Surplus | \$35,767 |

New York Lake Erie & Western.—The following is a com-parative statement of the earnings and expenses of the New York Lake Erie & Western Railroad Company:

| | Month | of August- | |
|------------------|----------------------|---------------------------------|----------------------------------|
| Gross earnings | 1879. \$1,450,222 | 1880. \$1,606,873 957,685 | Increase. \$156,650 98,700 |
| Net earnings | \$591,237 | \$649,187 | \$57,950 |
| | -Oct.,'79, to A | ug.,'80, incl | |

| Gross earnings | \$14,449,527 | \$16,906,691 | \$2,457,164 |
| Working expenses | 10,244,303 | 10,615,626 | 371,322 |
| Net earnings | \$4,205,223 | \$6,291,065 | \$2,085,841 |

IN. Y. Stock Exchange New Securities.—The governors of the Stock Exchange admitted to dealings at the board the following-named securities, of which a description will be found in the Investors' Supplement of October 30.

Stormont Silver Mining Company-15,000 shares capital stock

of the par value of \$1 each.
Wabash St. Louis & Pacific Railroad Company—\$35,000,000 general mortgage 6 per cent gold bonds, due in 1920. The mortgage is for \$50,000,000, and of the amount now placed upon the list \$33,000,000 is reserved to retire prior mortgages

apon the list \$33,000,000 is reserved to retire prior mortgages maturing prior to 1911.

Utah Southern Railroad Company—\$450,000 general mortgage 7 per cent bonds, numbered 1,501 to 1,950.

Denver South Park & Pacific Railroad Company—1,800,000 first mortgage 7 per cent gold bonds, due 1905, and 35,000 shares of capital stock of the par value of \$100 each.

Louisville & Nashville Railroad Company—\$14,716,000 general mortgage 6 per cent gold bonds, due 1930. Of this amount \$9,716,000 are reserved to retire prior mortgages. Evansville Henderson & Nashville Division—\$2,400,000 first mortgage 6 per cent gold bonds, due 1919.

cent gold bonds, due 1919.

Midland Railroad Company of New Jersey—\$500,000 first mortgage 6 per cent and \$3,000,000 4-6 per cent bonds, due

Ogdensburg & Lake Champlain.—The transfer of the preferred stock of the Ogdensburg & Lake Champlain Railroad into mortgage and income bonds was concluded last week. Of the 20,000 shares, 16,000 accepted the proposal of the directors and agree to change.

and agree to change.

Ohio & Mississippi.—At the annual meeting of the stock-holders—held in Cincinnati, October 14—the President submitted a brief report, in which he stated that "the business and net earnings of the road have steadily increased since the Receiver's appointment in 1876. His reports show that the net earnings for the year ending December 31, 1877, on both the main line and Springfield Division, were \$990,299; for the year 1878, \$864,-547; for the year 1879, \$1,051,418; while for the nine months of the current year, say to September 30 (the earnings for September being estimated approximately), the net earnings were \$853,332, against \$613,284 for the corresponding period of 1879, and for the entire year will probably be about \$1,300,000. The earnings of the Springfield Division were less than expenses for the year ending December 31, 1877, by the sum of \$48,169; for the year 1878, \$26,920; for the year 1879, \$3,778."

Oregon Railway & Navigation Commany—A dispatch

Oregon Railway & Navigation Company.—A dispatch from San Francisco, Cal., October 15, said that the Seattle & Walla Walla Railroad had been purchased by Henry Villard, of New York, who is President of the Oregon Railway & Navigation Company.

Philadelphia & Reading.—Mr. T. W. Powell, of the English bondholders' committee, arrived in Philadelphia last week. On Wednesday, October 20th, he had a long conference with President Gowen and the board of managers of the companies. No announcement was made as to the result of their deliberations, but it was stated that an American committee will shortly be expected. be appointed.

The following is an abstract of the English committee's second report, just at hand in the London newspapers:

the same e property the second report, just at hand in the London newspapers:

"Since the issue of their first report, dated June 18 last, the committee there have been in active communication with the Receivers, with reference to press their exterefore. New York, by signing state. New York, by signing state interest due on July 1 to the general mortgage bondholders, it became the duty of the committee to consider what steps should be taken to protect this class of securities. With the approval of the committee to consider what steps should be taken to protect this class of securities. With the approval of the committee a suit was commenced for that purpose by the Farmers' & Mechanics' National Bank of Philadelphia, and on July 2 last the committee a suit was commenced for that purpose by the Farmers' & Mechanics' National Bank of Philadelphia, and on July 2 last the order for the Receiver in the suit of the income mortgage bondholders was extended to the general mortgage suit. This step excluded any factious proceedings by small bodies of bondholders. Another important question which presented itself was the way in which the debts due for materials and supplies at the date when the companies suspended payment should be dealt with. The total amount was about \$1,815,500, and it was urgently asked that this should be in some way secured or satisfied.

** * After careful consideration the committee came to the conclusion that while they were not prepared to consent to any order in favor of the creditors for sumplies, they should not be justified in opposing the application of the Receivers for authority to issue certificates in respect to the control of the Receivers for authority to issue certificates in respect of the second of the Receivers to issue certificates of indebtedness in respect of these claims. Neither the order nor the certificates profess to give any priority over other debts, and they would appear to imply that the supply creditors should wait the convenience of the Receivers before demanding payment. The committee understand that the convenience of the Receivers before demanding payment. The committee understand that the convenience of the Receivers before demanding payment. The committee understand that the convenience of the Receivers before demanding payment. The committee understand that the committee in the principles on which any plan for the reorganization of the two companies' financial position should be based, and they think it demands the property of the property of the two companies' financial position should be based, and they think it the annual fixed and absolute charge of the several debts of the two companies has now risen to about \$\$^{*}_{3}, 000,000.

** The shareholders, if they desire to retain any interest in the revenue during the last five years has averaged less than \$\$4,000,000.

** The shareholders, if they desire to retain any interest in the system of the property of the whole of the railroad company's stock of \$\$34,278,175, and for about \$\$50,000,000 to \$\$4,000,000 of the bounds and debentures of the two companies. And this interest the shareholders will find it impossible to property the shareholders.

** The care two ways in which a reorganization can be effected. The first is by a sale by direction of the Court in the sait instituted on behalf of the general mortgage boundholders.

** The care two ways in wh

under which these creditors and shareholders would find themselves entirely excluded."

—President Gowen, in a letter to the Public Ledger, says:

"If it were possible that such a thing as a foreclosure or sale of the property could ever take place, the latter would be sold subject to the lien of all the prior mortgages, and out of the proceeds of sale the Receivers' certificates wou do be paid even if there was not enough money to pay the general mortgage in full, but such sale would in no manner disturb the lien or affect the security of the prior mortgages, the holders of which can therefore safely dismiss all fears as to their position. As to the amount of Receivers' certificates outstanding: On the 27th of May last the Receivers were authorized to borrow \$1,000,000, of which \$610,000 was tor interest on consolidated mortgage due June 1st and the remaining \$390,000 was for the purpose of paying arrears of wages. Of this issue of \$31,000,000, there has been paid \$300,000 additional will be paid within the next two weeks. The Receivers also issued \$379,162 86 of certificates for July rentals, all of which have since been paid. The Receivers of the Coal & Iron Company have from time to time issued, on account of current deliveries of iron, certificates amounting to \$231,801 16, of which amount there have been paid \$157,591 07. These are all the certificates or obligations issued by the Receivers of either company, except the 4 per cent certificates issued under the order of the Court, for materials and supplies furnished to the two companies; and this latter issue had no other effect than to convert an existing lien bearing 6 per cent interest into one which bears but 4 per cent. It must be remembered that there are over \$60,000,000 of the securities of the company which are subordinate to the lien of the general mortgage cand, although no disposition has been shown by the general mortgage, and, although no disposition has been shown by the general mortgage are creditors to huras the company or to insist upon

Following is a comparative statement of the receipts and tonnage of the Railroad and the Coal & Iron companies for the month of September and ten months of the fiscal year:

St. Paul Minneapolis & Manitoba.—This company are pushing forward the extension of their lines. The *Pioneer Press*, in reporting the progress of the work, says: "On the Grand Forks Fargo Moorhead & Barnesville extension the track is laid 31½ miles south of Grand Forks. The distance from Grand Forks to Fargo is 75 miles, and from Fargo to Barnesville is 22½ miles. The grading over the latter distance is nearly completed. The extension from Breckenridge to Maple River is 48 miles long, and the track is down over half the distance. The extension from Morris to Brown's Valley is 48 miles long, and the track reached Graceville, a distance of 26½ miles from Morris, on Wednesday. The extension west of Grand Forks is graded for a distance of 15 miles, and is ironed for 11½ miles. Work is progressing very favorably on the Osseo branch, and 12 miles of track will be laid this season. All these extensions are to be finished before severe cold weather sets in, thus adding 225 miles to the railroad system of St. Paul."

Southern Pacific.—The following statement of earnings has

Southern Pacific.—The following statement of earnings has been published for August and the eight months ending August 31: Eight months.

1880. 1879.

Total..... \$508,000 \$237,263 \$3,266,000 The Northern Division is the line out of San Francisco, which worked directly by the company. The Southern Division is is worked directly by the company. The Southern Division is the Los Angeles & Yuma line, which is worked by the Cen-tral Pacific Company.

United States Bond Frands.—Judge Lawrence, First Comptroller of the Treasury, has rendered the following decision:
First—That where it has been fraudulently represented to the Treasury Department that a Government bond has been destroyed and that when so destroyed it was owned by a party named, payment to such body of such bond by the Treasury Department will not deprive another person, the bona fide owner of the bond, of the right to payment.

Second—The payment to such fraudulent claimant does not operate to exhaust so much of the permanent appropriation made for the payment of the public debt as has been so applied, so that a new appropriation is necessary. The appropriations for payment of the public debt are of moneys sufficient to pay bonds called for payment.

Third—As to other appropriations of specific sums for purposes stated, a payment by mistake to a fraudulent claimant cannot deprive a rightful claimant of his right to payment. In such case the erroneous payment could not be charged to the appropriation so as to exclude the rightful claimant from payment, but should got on a necount for relief by Congress.

Washington City Virginia Midland & Great Southern.

claimant from payment, but should go to an account for relief by Congress.

Washington City Virginia Midland & Great Southern.

—Pursuant to the decree of the Virginia Court of Appeals, the Circuit Court of Alexandria, Va., has entered a decree ordering the sale of this railroad. In accordance with the decree, Mr. John S. Barbour, commissioner of sale, announces that the entire line of road and all branches, with all equipments, rights, franchises, properties, &c., will be sold on 20th December next, at public auction, at Alexandria. The property will be purchased by a committee of its creditors, and reorganized under terms agreed upon some time since. ized under terms agreed upon some time since.

western Railroad of Minnesota.—Washington dispatches of October 16 reported that the Secretary of the Interior had rendered a decision involving interests in the case of the Western Railroad of Minnesota, now operated and controlled by the Northern Pacific Railroad Company, in regard to the claim of that company for lands under the indemnity grant to the State of Minnesota of the acts of March 3, 1857, March 3, 1865, and the various amendatory statutes. This decision, which also bears directly upon the similar claims of the Chicago Milwaukee & St. Paul Railroad, is favorable to the claims. The decision accords with the opinion of Attorney-General Devens furnished to the Interior Department last June, and is substantially in accord with the original practice of the Department prior to the decisions rendered by the Supreme Court in the cases of Leavenworth Lawrence & Galveston Railroad Co. vs. the U. S. and the U. S. vs. Burlington & Missouri River Railroad Co., which cases are construed by the Attorney-General's opinion as not necessarily conflicting with the views therein expressed. sarily conflicting with the views therein expressed.

are construed by the Attorney-General's opinion as not necessarily conflicting with the views therein expressed.

Wisconsin Central.—The *Bconomist*, of Boston, says of this railroad: "The earnings of the company are sufficient to meet all fixed charges at present. The bonds amount to \$9,900,000, of which \$4,000,000 are preferred 5 per cent bonds, \$3,800,000 first consolidated bonds drawing 2 per cent for three years from July 1, 1880, and afterwards 5 per cent, and \$5,700,000 second consolidated bonds drawing 2 per cent for three years from July 1, 1881, and not exceeding 7 per cent per annum thereafter. But the interest on this last series of bonds is paid only after \$30,000 has been set aside for the permanent improvement and repair of the road. Thus it will be seen that the present fixed annual charges preceding the stock amount to \$250,000, and that a few years hence they will amount to \$650,000. This is including 5 per cent of the principal of the preferred bonds, which must be paid annually. The gross earnings last year were \$853,225, and the net, after deducting the rentals, \$193,090. The gross earnings this year show 40 per cent increase, and the net from 90 to 100 per cent increase. The preferred 7 per cent stock amounts to \$2,000,000 and the common to \$9,435,500. In a few years the genring swall be doubled, and the net earnings nearer \$800,000 than \$200,000; for important connections with other roads have yet to be made which will greatly increase the central of the property. tions with other roads have yet to be made which will greatly increase the earning capacity of the property."

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, Oct. 22, 1880.

The excitement and activity on the Stock Exchange have diverted much speculative interest from mercantile circles, and the export demand for some of the staples of domestic produce has fallen off, giving a quieter appearance to business during the past week. The near approach of the Presidential Election also has an adverse effect. There has been a violent storm in the Northwest, which for a time interrupted transportation, there having been a deep fall of snow, unprecedented, so far as is known, in October.

There has been an absence of speculative support to the provision market during the past week, and prices have gradually declined until to-day, when mess pork on the spot was sold at \$16; November options were quoted \$13@\$13 70, and seller year, \$12 50@\$13 20 bid and asked; October settling price, \$18. Lard declined fully 10@15c. per 100 lbs., with prime Western sold on the spot at 8 45@8 40c., and to arrive at 8 40c. October contracts realized 8 47½@3 40c.; November, 8 40@3 30c.; Degember and seller the year, 8 27½@3 25c.; buyer year, 8 50@\$47½c.; January, 8 32½@3 27½c.; February, 8 35@8 32½c.; seller 6 months, 8 27½@3 25c.; refined to the Continent, 8 70c. Bacon on the spot was dull at 8½c. for long clear; long and short clear for November delivery in Chicago sold at 6 82½c., and for next week at 7 27½c.; short clear for December delivery sold there at 6 77½c. Cut meats were about steady. Beef has ruled quiet but unchanged, with extra Philadelphia India mess selling to-day at \$18@\$18 50. Beef hams, \$15 50. Tallow fairly active at 6¼@6%c. Butter of fine quality has a good sale at steady prices. Cheese steady, with prime factory quoted 12¼@12½c. The following is a comparative summary of aggregate exports, from Nov. 1 to Oct. 18: There has been an absence of speculative support to the pro-

| Porklbs. | 1879-80. 67.262.200 | 1878-79. 71.727.200 | Increase. | Decrease. 4,465,000 |

Total...lbs.1,195,429,772 1,127,966,695 71,928,677 Rio coffee has latterly sold rather more freely, and has advanced to 14c. for fair cargoes, but closes quiet at that price; mild grades have met with only a fair demand as a rule, but have for some days past been firmly held; of Maracaibo, however, the sales have been nearly 8,000 bags within the range of 12½@15c.; the supply of mild coffee a few days ago was 81,096 bags and 138,619 mats; to-day the market was quiet and steady. Rice has met with a pretty good demand, and has in the main been firm for new crop, though old crop has sold at somewhat irregular prices. Molasses has been quiet, and to a great extent nominal for old crop, at prices showing no material change; but small lots new crop, New Orleans, have sold at 60@68c. Raw sugar has not varied materially from the quotations of last week, except that good refining Muscovado has sold within a few days at 7½c.; the closing quotation for 96 degrees test Centrifugal is 8¾c. The following shows the statistical position: Rio coffee has latterly sold rather more freely, and has ad-

| | Hhds. | Boxes. | Bags. | Melado. |
|-----------------------------|--------|--------|---------|---------|
| Receipts since Oct. 1, 1880 | 8.829 | 200 | 203,805 | 186 |
| Bales since Oct. 1, 1880 | 32.233 | 4.413 | 119,473 | |
| Stock Oct. 20, 1880 | | 8,852 | 886,552 | 7.470 |

Refined early in the week was active and firm, but latterly the demand has been less urgent and prices have declined, especially for soft sugars. Crushed is quoted at 10½4010%c. and granulated 9%c.

Kentucky tobacco has been very dull in the past week, and the sales are only 200 hbds., of which 150 for export and 50 for home consumption. Prices, however, remain steady; lugs are quoted at 50%c. and leaf 6½@13c. The movement in seed leaf is also somewhat restricted, and sales for the week are only 950 cases 1879 crop, New England, 12@40c.; 50 cases 1878 crop, Ohio, 9½c., and 100 cases sundries, 9@18c. Also, 800 bales Havana, 82c.@\$1 20.

Naval stores have shown a sharp reaction: the foreign ad-

Naval stores have shown a sharp reaction; the foreign advices have declined, and the primary markets are lower; strained to good strained rosins find a difficult sale at \$1.85@ \$1.90, and spirits turpentine at 45c. Petroleum has had a fair export movement until to-day, when the market was dull and refined quite nominal at 12c. Crude certificates closed about steady at 96 \(\frac{1}{2} \) cide id. All metals are quiet with the exception of lead, which has been active for November and December delivery at 4.65c. for common domestic. Ingot copper closed at 18\(\frac{1}{2} \) described in the steady at 18\(\frac{1}{2} \) copper closed at 18\(\frac{1}{2} \) described in the steady at 18\(\frac{1}{2} \) described in the s

business reported.

Ocean freight room has been taken quite fairly, particularly by the grain trade. Rates at times were irregular, but at the close the tone was about steady. Grain to Liverpool, by steam, 6d; bacon, 30s.; butter and cheese, 40@45s.; cotton, ¼@5-16d.; flour, 2s. 9.; do. to London, by sail, 2s. 5d.; grain to London, by steam, quoted 8d.; flour to Glasgow, by steam, 2s. 9d. per bbl. and 23s. 9d.@25s. per ton; grain to Havre, by steam, 17½c. per bush.; do. to Cork for orders, 5s. 6d.@5s. 7½d. spot, and 5s. 4½d.@5s. 6d. for November sailing; do. to Havre or Antwerp, 4s. 10½d.; do. to East Coast of Ireland, 4s. 7½d.; do. to Aarhuusa, 5s. 6d.; refined petroleum to Genoa, 4s. 3d.; naphtha to Marseilles or Cette, 4s. 3d.

COTTON.

FRIDAY, P. M., October 22, 1880.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Oct. 22), the total receipts have reached 236,341 bales, against 210,367 bales last week, 199,094 bales the previous week and 172,221 bales three weeks since; making the total receipts since the 1st of September, 1880, 1,139,466 bales, against 976,522 bales for the same period of 1879, showing an increase since September 1, 1880, of 162,944 bales. The details of the receipts for each day of this week (as per telegraph) are as follows:

| Receipts at- | Sat. | Mon. | Tues. | Wed. | Thurs. | Fri. | Total. |
|------------------|--------|--------|--------|--------|--------|--------|---------|
| New Orleans | 10,170 | 4,262 | 11,212 | 7,235 | 8,652 | 8,922 | 50,453 |

• The exports this week under the head of "other ports" include, from Baltimore, 3,900 bales to Liverpool; from Boston, 1,889 bales to Liverpool; from Philadelphia, 979 bales to Liverpool; from Wilmington, 1,480 bales to Liverpool and 1,827 bales to Continent; from Port Royal, 5,933 bales to Liverpool.

From the foregoing statement it will be seen that, compared

from the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a decrease in the exports this week of 11,596 bales, while the stocks to-night are 105,934 bales more than they were at this time a year ago. In addition to above exports, our telegrams to-night also give us the following amounts of cotton on shipboard, not cleared, at the ports named. We add similar figures for New York, which are prepared for our special use by Messrs. Carey, Yale & Lambert, 60 Beaver Street.

| | Or | Shipboo | erd, not c | leared-) | for | T amain a |
|--------------------|--|--|---|---|--|-------------------|

* Under the head of Charleston is included Port Royal, &c.; under the head of Palveston is included Indianola, &c.; under the head of Noryolk is included City

The speculation in futures was fairly active at advancing prices during Saturday and Monday, owing to reports of bad weather and frosts at the South, and the demand to cover contracts which arose therefrom. But on Tuesday it was ascertained that the South had suffered very little damage, and, with the return of good picking weather, continued large receipts at the ports, and other influences in the same direction, prices lost part of the advance. On Wednesday Liverpool was unexpectedly stronger, and there was an early advance with us, but it was mostly lost at the close, especially for the early months. On Thursday there were no changes of importance, and but a moderate movement. To-day the opening was stronger, but the close without improvement. Cotton on the spot has been more active for export, and a better business was done for home consumption. Prices, however, were without improvement. There is a scarcity of the better grades, while the poorer qualities were not wanted; consequently, there is still a wide difference between middling cotton and deliveries on contracts on the basis of that grade. Thus, on Tuesday, with middling uplands on the spot quoted at 11 3-16c., a "short notice" for the 20th sold at 10.72c., or more than 7-16c, below the regular "spot" price. Yesterday low middlings, and above of Gulf cottons were 1/8c. higher. Today the market was quiet and unchanged.

The total sales for forward delivery for the week are 470,700 bales, including - free on board. For immediate delivery the total sales foot up this week 11,180 bales, including 7,311 for export, 3,869 for consumption, - for speculation, and - in transit. Of the above, 300 bales were to arrive. The following are the official quotations and sales for each day of the past week:

15 pd. to exch. 100 Jan. for Feb.
16 pd. to exch. 100 Oct. s. n. 21st for Dec.
10 pd. to exch. 200 Nov. for Dec.
10 pd. to exch. 500 Nov. for Dec.

THE VISIBLE SUPPLY OF COTTON, as made up by cable and telegraph, is as follows. The Continental stocks are the figures of last Saturday, but the totals for Great Britiain and the affoat for the Continent are this week's returns, and consequently brought down to Thursday evening; hence, to make the totals the complete figures for to-night (Oct. 22), we add the item of exports from the United States, including in it the exports of Friday only.

| | | | | |

The above figures indicate an *increase* in the cotton in sight to-night of 296,838 bales as compared with the same date of 1879, an *increase* of 293,068 bales as compared with the corresponding date of 1878, and an *increase* of 278,171 bales as compared with

1877. In the preceding visible supply table we have heretofore only included the interior stocks at the seven original interior towns. As we did not have the record of the new interior towns for the four years, we could not make a comparison in any other way. That difficulty no longer exists, and we therefore make the following comparison, which includes the stocks at the nineteen towns given weekly in our table of interior stocks instead of only the old seven towns. We shall continue this double statement for a time, but finally shall simply substitute the nineteen towns for the seven towns in the preceding table.

| American- | 1880. | 1879. | 1878. | 1877. |

'This year's figures estimated.

The above totals show that the old interior stocks have increased during the week 17,819 bales, and are to-night 55,712 bales more than at the same period last year. The receipts at the same towns have have been 30,018 bales more than the same week last year.

RECEIPTS FROM THE PLANTATIONS.—The following table is prepared for the purpose of indicating the actual movement each week from the plantations. Receipts at the outports are sometimes misleading, as they are made up more largely one year than another, at the expense of the interior stocks. We reach, therefore, a safer conclusion through a comparative statement like the following. In reply to frequent inquiries we will add that these figures, of course, do not include overland receipts or Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the out-ports.

RECEIPTS FROM PLANTATIONS.

| | Week | Receip | ts at the | Ports. | Stock at Interior Ports | | | Rec'pts from Plant'ns. | | |
|------|-------|---------|-----------|---------|-------------------------|--------|---------|------------------------|---------|---------|

| 44 | 15 | 160,233 | 181,714 | 210,367 | 79,597 | 81,227 | 121,895 | 180,007 | 194,028 | 229,176 |
| 4 | 22 | 162,236 | 214.461 | 236,341 | 97,887 | | 152,765 | | | |

The above statement shows-

1. That the total receipts from the plantations since Sept. 1 in 1880 were 1,267,288 bales; in 1879 were 1,065,214 bales; in 1878 were 940,310 bales.

2. That the receipts at the out-ports the past week were 236,341 bales, and the actual movement from plantations 267,211 bales, the balance being added to stocks at the interior ports. Last year the receipts from the plantations for the same week were 229,227 bales and for 1878 they were 180,526 bales.

Weather Reports by Telegraph.—The weather during the week has been in the main favorable for crop purposes. There has been more or less rain over the whole of the cotton region, but not enough to materially interfere with picking or damage the plant. Our Texas correspondents say that labor in that State is scarce.

Galveston, Texas.—We have had showers on two days, the rainfall reaching twenty-eight hundredths of an inch; but the rest of the week has been pleasant, the thermometer ranging from 53 to 83, averaging 67. Picking is progressing, but labor is scarce. There is no change in the prospect. The crop will exceed that of last year.

Indianola, Texas.—We have had one light shower the past week, the rainfall reaching seven hundredths of an inch. Average thermometer 67, highest 84 and lowest 49. Picking is progressing finely, and crop turning out better than expected, though the top crop of this section will be poor.

Corsicana, Texas.—There has been one shower during the week, with a rainfall of twenty hundredths of an inch. Average thermometer 65, highest 84 and lowest 46. Picking making fine progress.

Dallas, Texas.—It has rained on one day during the week—a shower—the rainfall reaching fifteen hundredths of an inch, and the thermometer has averaged 65, ranging from 46 to 84. Picking progressing finely. Crop accounts are more favorable, and if frost is delayed for ten days the top crop here will be excellent.

Brenham, Texas.—Rain has fallen during the week on two days (showers), the rainfall reaching one inch. Average thermometer 67, highest 84 and lowest 51. Picking making excellent progress. Crop accounts more favorable, but labor scarce.

Waco, Texas.—There has been a shower on one day the past week, with a rainfall of fifty hundredths of an inch. Picking progressing rapidly. Crop accounts are more favorable, and it is believed that the yield of this section will materially exceed last year's. Average thermometer 66, highest 84 and lowest 50.

New Orleans, Louisiana.—It has rained on one day the past week, the rainfall reaching twenty-six hundredths of an inch-The thermometer has averaged 65.

Shreveport, Louisiana.—We had rain on the first day of the past week, but the balance has been clear and dry, and picking is progressing rapidly. The thermometer has averaged 59, the highest being 76 and the lowest 43. The rainfall for the week is eighty-seven hundredths of an inch.

Vicksburg, Mississippi.—It has rained during the week on one day. We have had a frost, but not a killing frost.

Columbus, Mississippi.—The weather during the week has been cold and dry, rain having fallen on only one day. Aver

age thermometer 63, highest 78 and lowest 54, and rainfall twenty-seven hundredths of an inch. We have had a frost this week, but a killing frost.

Little Rock, Arkansas.-Friday and Monday last were cloudy, with rain on Friday and last (Thursday) night. Had a severe wind on Friday with quite a change in temperature, and on Saturday night we had our first frost. The thermometer has ranged from 37 to 79 during the week, averaging 57. The rainfall is seventeen hundredths of an inch.

Mashville, Tennessee.—Rain has fallen during the past week on two days, to a depth of one inch and thirty-four hundredths. The thermometer has ranged from 38 to 79, averaging 57.

Memphis, Tennessee.—Rain has fallen during the past week on two days, the rainfall reaching one inch and fourteen hundredths. We had frosts, but not killing frosts, on the seventeenth and eighteenth. Week's pickings moderately good. Average thermometer 58, highest 79 and lowest 39.

Mobile, Alabama.—It has rained constantly on one day and has been showery on one day, the balance of the week having been cloudy. We had a frost in the northern counties this week, but it was not a killing frost. Accounts from the interior are contents.

been trough the state of the control of the interior are conflicting, but reported damage to the crop is much exagerated the crop is much exagerated and the crop is much exagerated and control of the crop is much exagerated to the crop is much exag Average thermometer 63, highest 83 and lowest 49, and rainfall

one inch and thirty-seven hundredths,

Montgomery, Alabama.—It has been showery three days,
the rainfall reaching sixty-nine hundredths of an inch, and the
rest of the week has been cloudy. It is clearing to-day (Friday).
Planters are sending cotton to market freely. Average thermom-

eter 62, highest 84 and lowest 44,

Selma, Alabama.—There has been no rainfall during the
week, the weather having been very fine. Planters are sending

cotton to market freely.

Madison, Florida.—It has rained on three days the past
week, and much damage has been done. The thermometer has

ranged from 60 to 75, averaging 67.

Macon, Georgia.—Rain has fallen on two days, but the rest of the week has been clear and pleasant. Average thermometer

of the week has been clear and pleasant. Average thermometer 63, highest 81 and lowest 42.

Columbus, Georgia.—We have had rain on two days the past week, the rainfall reaching sixty-four hundredths of an inch. The thermometer has averaged 66.

Sacannah, Georgia.—It has rained on two days the past week, the rainfall reaching sixty-four hundredths of an inch, and the weather the remaining portion has been cloudy. Average thermometer 62, highest 79 and lowest 50.

Augusta, Georgia.—We have had light rains on two days, the rainfall reaching fifty-four hundredths of an inch; but the rest of the week has been pleasant. The thermometer has ranged from 42 to 81, averaging 60. Picking is progressing finely, and the week has been pleasant. The thermometer has ranged from 42 to 81, averaging 60. Picking is progressing finely, and planters are sending their cotton to market freely.

*Charleston, South Carolina.**—We have had rain on two days the past week, the rainfall reaching one inch and sixty-one hundred in the control of the

dredths. The therm 80 and the lowest 48. The thermometer has averaged 63, the highest being

The following statement we have also received by telegraph. showing the height of the rivers at the points named at 3 o'clock October 21, 1880, and October 23, 1879.

| Vicksburg Above low-water mark | Miss | ing. | 3 | 4 |

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

AGRICULTURAL BUREAU REPORT.—The Agricultural Bureau report of the condition of cotton October 1, was issued last Friday afternoon, but, through an oversight on the part of the person in charge, in the absence of the editor of this department, it was omitted from these columns. As a matter of record we now give it in full below.

"The returns of October 1 received at this Department give a condition of the cotton crop of 83, being a decline of 8 per cent since September 1. Compared with the returns received at the same time last year there is a gain of 2 per cent.

"The following is a summary of the reports by States:
"North Carolina—42 counties reporting give an average of against 77 legt war.

93, against 77 last year.
"South Carolina—20 counties reporting give an average of

37, against 82 last year.
"Georgia—54 counties give an average of 88, against 77 last

"Florida-12 counties reporting give 88, against 80 last year. "Alabama--32 counties reporting give 85, against 79 last year.
"Mississippi—44 counties reporting give 75, against 85 last

year.
"Louisiana-15 counties reporting give 70, against 80 last

year.
"Texas—65 counties reporting give 88, against 65 last year.
"Arkansas—32 counties reporting give 85, against 96 last year.
"Tennessee—15 counties reporting give 87, against 106 last

year.
"The Atlantic States all report favorable weather, and the crop as two weeks earlier than last year, In Florida there is universal complaint of damage from storms. In Alabama there

is too much rain and rust, and too many caterpillars are reported in many localities. In Mississippi, Louisiana, Arkansas and Tennessee the weather has been too wet, and great loss from boll worm, rot and rust is reported. In Texas too much rain in boll worm, rot and rust is reported. In Texas too much rain in many localities and worms in nearly all are reported; still, correspondents state that there is as much cotton as can be gathered."

Following our usual plan, we have prepared an average of the condition reports for the five months, and this, together with the figures for each month, is given in the annexed table.

| | | 1880. | | | | | | 1879. | | | | |
|----------------|-------|-------|------|-------|------|-------|-------|-------|------|-------|------|-------|
| States. | June. | July. | Aug. | Sept. | Oct. | Aver- | June. | July. | Aug. | Sept. | Oct. | Aver- |
| North Carolina | 92 | | 106 | 100 | 93 | 98.4 | | 104 | 86 | 83 | 77 | 89.0 |
| | 104 | | 98 | 93 | 87 | | 94 | 81 | 82 | 81 | 82 | 84.0 |
| Georgia | 98 | 97 | 98 | 95 | 88 | 95.2 | 93 | 86 | 87 | 82 | 77 | 854 |
| Florida | 90 | | 96 | 91 | 88 | 91.4 | 95 | 91 | 87 | 85 | 80 | 87.6 |
| Alabama | 96 | 93 | 99 | 86 | 85 | 91.8 | 96 | 96 | 100 | 84 | 79 | 91.0 |
| Mississippi | 96 | 99 | 99 | 88 | 75 | 91.4 | 99 | 92 | 98 | 89 | 85 | 92.6 |
| Louisiana | 97 | 96 | 99 | 88 | 70 | 90.0 | 95 | 93 | 89 | 97 | 80 | 88.8 |
| Texas | 106 | 111 | 110 | 97 | 88 | 102.4 | 94 | 90 | 79 | 66 | 65 | 78.8 |
| Arkansas | 100 | 104 | 106 | 95 | 85 | 98.0 | 100 | 103 | 96 | 99 | 96 | 98.6 |
| Tennessee | 99 | 103 | 107 | 90 | 87 | 97.2 | 94 | 101 | 105 | 107 | 106 | 102 |
| Average | 98 | 100 | 102 | 91 | 83 | 95.2 | 96 | 94 | 91 | 86 | 82 | 89: |

The average for the entire South for the five months is thus 5 per cent better than the average for the five months of last year. All the States show higher averages except Mississippi, Arkansas and Tennessee, which show a small decrease. The decline is largest in Tennessee, but even there amounts to only 5½ per cent.

GUNNY BAGS, BAGGING, ETC.—Bagging has continued to meet with a moderate demand, but large parcels cannot be placed. There is an easier feeling among holders, and prices are lower than when we last wrote, and more disposition is shown to sell. Prices are now quoted at 10c. for 134 lbs., 11c. for 2 lbs. and 113/4@12c. for standard qualities. Butts have not changed, and we do not hear of any transactions, as manufacturers are not in need of any stock at the moment. Holders are asking 2%c. for paper quality and 3c. for spinning grades, with a few sellers quoting a shade higher.

COMPARATIVE PORT RECEIPTS AND DAILY CROP MOVEMENT .-A comparison of the port movement by weeks is not accurate, as the weeks in different years do not end on the same day of the month. We have consequently added to our other standing tables a daily and monthly statement, that the reader may constantly have before him the data for seeing the exact relative movement for the years named. The movement each month since Sept. 1 has been as follows.

| Monthly | | Year Beginning September 1. | | | | | | | | | | |
|-------------|-----------|-----------------------------|---------|--------|---------|---------|--|--|--|--|--|--|
| Receipts. | 1880. | 1879. | 1878. | 1877. | 1876. | 1875. | | | | | | |
| Sept'mb'r | | | 288,848 | 95,272 | 236,868 | 169,077 | | | | | | |
| Perc'tage e | Sept. 30. | 06.67 | 06.49 | 02:19 | 05.87 | 04 03 | | | | | | |

This statement shows that up to Sept. 30 the receipts at the ports this year were 124,835 bales more than in 1879 and 169,630 bales more than at the same time in 1878. By adding to the above totals to Sept. 30 the daily receipts since that time, we shall be able to reach an exact comparison of the movement for the different years.

| " 22 | 48,366 | 25,507 | 22,873 | 30,656 | S. | 27,823 |
| | 1,139,466 | 897,986 | 765,856 | 453,336 | 660,654 | 571,718 |
| | ts Oct. 22. | 17.95 | 17.22 | 10.43 | 16:36 | 13 64 |

This statement shows that the receipts since Sept. 1 up to to-night are now 241,480 bales more than they were to the same day of the month in 1879 and 373,610 bales more than they were to the same day of the month in 1878. We add to the last table the percentages of total port receipts which had been received to October 22 in each of the years named.

India Cotton Movement from all Ports.—The figures which are now collected for us, and forwarded by cable each Friday, of the shipments from Calcutta, Madras, Tuticorin, Carwar, &c., enable us, in connection with our previously-received report from Bombay, to furnish our readers with a full and complete India movement for each week. We first give the Bombay statement for the week and year, bringing the figures down to October 21.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

| | Shipments this week. | | | Shipm | ents since | Receipts. | | |
|--------------|----------------------|-----------------|--------|------------------|--------------------|--------------------|---------------|------------------|
| Year | Great Brit'n. | Conti- nent. | Total. | Great Britain | Conti- nent. | Total. | This Week. | Since Jan. 1. |
| 1980 1879 | | 1,000 | | | 494,000 350,000 | 853,000 601,000 | 6,000 | 1,094,000 |
| 1878 1877 | 2,000 | | 3,000 | 317,000 | 388,000 412,000 | 705,000 | 3,000 | |

According to the foregoing, Bombay appears to show an increase compared with last year in the week's receipts of 1,000 bales, the shipments being the same as last year; and the shipments since January 1 show an increase of 252,000 bales. The movement at Calcutta, Madras, Tuticorin, Carwar, &c., for the same week and years has been as follows.

CALCUTTA, MADRAS, TUTICORIN, CARWAR, BANGOON AND KURRACHEE.

| | Shipm | ents this | week. | Snipments since January 1. | | | | |
|-------|-------------------|-----------------|--------|----------------------------|-----------------|---------|--|--|
| Year. | Great Britain. | Conti- nent. | Total. | Great Britain. | Conti- nent. | Total. | | |
| 1880 | 1,000 | 1.000 | 2.000 | 205,000 | 82,000 | 287,000 | | |
| 1879 | | 1,000 | 1,000 | 202,000 | 108,000 | 310,000 | | |
| 1878 | 2,000 | 3,000 | 5,000 | 130,000 | 63,000 | 193,000 | | |
| 1877 | | | | 79.000 | 51.000 | 130,000 | | |

The above totals for this week show that the movement from the ports other than Bombay is 1,000 bales more than same week of last year. For the whole of India, therefore, the total shipments this week and since January 1, 1880, and for the corresponding weeks and periods of the two previous years, are as follows.

EXPORTS TO EUROPE FROM ALL INDIA.

| Shipments | 18 | 880. | 18 | 79. | 1878. | | |
|------------------------|----------------|--------------------|----------------|--------------------|----------------|--------------------|--|
| to all Europe from— | This week. | Since Jan. 1. | This week. | Since Jan. 1. | This week. | Since Jan. 1. | |
| BombayAll other p'rts. | 1,000 2,000 | 853,000 287,000 | 1,000 1,000 | 601,000 310,000 | 3,000 5,000 | 705,000 193,000 | |
| Total | 3,000 | 1,140,000 | 2,000 | 911,000 | 8,030 | 898,000 | |

This last statement affords a very interesting comparison of the total movement for the week ending Oct. 21, and for the three years up to date, at all India ports.

ALEXANDRIA RECEIPTS AND SHIPMENTS.—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

| Alexandria, Egypt, Oct. 21. | 1880. | | 18 | 879. | 1978. | |
|--|----------------|-------------------|-----------------|-------------------|-------------------|-------------------|
| Receipts (cantars*)— This week Since Sept. 1 | | 00,000 55,500 | | 80,000 50,000 | 70,000 280,000 | |
| | This week. | Since Sept. 1. | This week. | Since Sept. 1. | This week. | Since Sept. 1. |
| Exports (bales)— To Liverpool. To Continent | 7,500 1,109 | 11,500 3,610 | 11,000 4,415 | | 1,500 1,000 | 17,500 5,000 |
| Total Europe | 8,609 | 15,110 | 15,415 | 39,816 | 2,500 | 22,500 |

^{*} A cantar is 98 lbs.

This statement shows that the receipts for the week ending Oct. 21 were 100,000 cantars and the shipments to all Europe were 8,609 bales.

MANCHESTER MARKET.—Our report received from Manchester to-night states that prices check business. We give the prices of to-day below, and leave previous week's prices for comparison:

THE EXPORTS OF COTTON from New York this week show a decrease, as compared with last week, the total reaching 13,160 bales, against 14,825 bales last week. Below we give our usual table showing the exports of cotton from New York, and their direction, for each of the last four weeks; also the total exports and direction since Sept. 1, 1880, and in the last column the total for the same period of the previous year.

EXPORTS OF COTTON (BALES) FROM NEW YORK SINCE SEPT. 1, 1880.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 82,567 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in the Chronicle last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week.

Included in above are, from Philadelphia, 50 bales to Antwerp.

Below we give all news received to date of disasters to vessels carrying cotton from United States ports, etc.:

Carrying cotton from United States ports, etc.:
 Bedford, steamer (Br.), while loading at Commercial Wharf, Charleston, S. C., on Oct. 17, was damaged during a fire communicated from the wharf. She had on board some 3,000 bales cotton. She was towed into the stream and a tug was alongside pumping water in her. The cotton in the hold caught fire, and the damage to it is estimated at \$90,000. Damage to the steamer \$10,000. She will be discharged.
 PRINCE SOTTYKOFF, steamer (Br.)—Steamer Saratoga, Curtis, at New York, Oct. 13, from Havana, reported:—Oct. 12, passed steamer Prince Sottykoff, (of Cardiif, E.) from Galveston for Bremen, off Cape Hatteras, hove to under canvas, machinery not working from lat. 28 to lat. 36.
 TRAVANCORE, steamer (Br.), while loading at Commercial Wharf, Charleston, S. C., Oct. 17, was damaged by fire communicated from the wharf. She had on board about 3,000 bales cotton, which were badly burned and also damaged by water which was pumped into the vessel. The vessel is injured to the extent of \$2,000. She will be discharged. The damage to cargo is estimated at \$105,000.
 Cotton freights the past week have been as follows:

BREADSTUFFS.

FRIDAY, P. M., Oct. 22, 1880.

There has been much less activity to the market for flours of all grades, but in particular the export demand has fallen off. and there is consequently some abatement of the recent advance in values. Inside prices have yielded most, as extreme outside figures have continued to be realized for favorite brands. Rye flour has further advanced, being scarce, the low stage of the mill streams in many sections having reduced the production. Corn meal has been in good demand. Buckwheat flour continues dull. To-day the market was steadier but quiet.

The wheat market has been variable, as foreign accounts have come forward, but in the aggregate there is an important decline from last Friday. The greatest depression, however, has been in contracts for future delivery. Supplies for immediate delivery have been rather small, but no great scarcity is felt because the export demand is at the moment checked by the prices demanded. Yesterday No. 2 red winter sold at \$1 16@\$1 17 on the spot, \$1 15½@\$1 16 for October, November and December, and No. 1 white, \$1 133/4@\$1 141/2, spot, October and November, and \$1 15 1/2 @\$1 16 for December. Spring growths remain nearly nominal. To-day the opening was weak, but the close 1/2@1c. dearer-No. 1 red winter closing at \$1 17@\$1 171/4 for December.

Indian corn has varied but slightly, but on the whole has favored buyers, especially for parcels afloat. Supplies are completely free, and the general demand seems to be less urgent. To-day the market was about steady. Late sales of No. 2 white were at 58c. No. 2 mixed for December closed at 55%c.

Rye has been active at \$1 03@\$1 05 on the spot and for the next two months, but closed last evening rather dull, and today the market was weak and unsettled. Barley was quite active, especially for two-rowed State, mostly at 70c., but including six-rowed State at 86c., No. 1 Canada at 89@89 2c., and choice do. at 96c. But there was nothing of moment done today. Oats have been in brisk request, but under free supplies prices declined, No. 2 mixed selling in large lines yesterday at 38½@38¾c. for October and November, and 39½c. for December. To-day the market was easier, November contracts for No. 2 mixed selling at 381/4c.

THE DAY GOODS TRADE.

FRIDAY, P. M., October 22, 1880.

As a whole the dry goods market has been quiet the past week, but there was an undercurrent of activity in some departments of the trade. There was a better demand for spring woolens by the clothing trade, which resulted in a fair business, and operations in certain makes of cotton goods were continued on a liberal scale by converters and finishers; but jobbers bought sparingly, and the export trade in domestics was checked by the inability of manufacturers' agents to accept orders for goods to be delivered at a stated time, because of the prevailing drought, which has seriously curtailed production in the manufacturing districts. Cool weather has enabled the wholesale clothing houses to reduce their stocks of winter clothing, and the dry goods jobbing trade—if not active—was at least fairly satisfactory for the time of year.

Domestic Cotton Goods.—The exports of cotton goods from this port during the week ending Oct. 19 were 1,894 packages, including 396 to Hayti, 393 to China, 247 to Great Britain, 219 to U. S. of Colombia, 203 to Hamburg, 177 to Venezuela, and a number of smaller shipments. The demand by package and retail buyers was chiefly of a hand-to-mouth character; but (as above stated) large quantities of goods were sold for conversion purposes, and there was a good inquiry for brown drills, sheetings, &c., by exporters, which was only partially met, owing to the meagre supplies on the market and the reluctance of agents to accept orders deliverable at a fixed period. The diminished production has imparted firmness to prices, and therewas a marked advance in print cloths, accompanied by unusually large transactions in both "spots" and "futures;" the closing quotations were 44c. for 64x64s and 35/6@34c. for 56x60s. Printed calicoes ruled quiet and ginghams (though firm in price) were in relatively light request.

Domestic Woolen Goods.—There was a further improvement in the demand for spring cassimeres, worsted coatings, &c., by the clothing trade, and considerable orders (for future delivery) were booked by agents representing some of the most popular makes. Heavy clothing woolens were in moderate request, but buyers were exacting in their demands for price concessions, and prices were in some cases unsatisfactory to manufacturers. Repellents moved steadily and leading makes are closely sold up; but cloakings were slow of sale. Flannels and blankets were in steady demand, and stocks are so well in hand that prices remain firm. Kentucky jeans ruled quiet, but there was more inquiry for light-weight satinets. Dress goods, shawls and skirts were severally in light request.

Foreign Dry Goods were devoid of animation in first hands, and the jobbing trade was comparatively quiet. Staple dress goods and fine silks are steadily held, but fancy dress fabrics and low-grade silks, satins and velvets are offered at unremunerative prices, owing to the excessive supply still resting with importers, notwithstanding the large offerings made through the auction rooms for many weeks past. Linen goods, laces and embroideries are fairly steady at unchanged prices, and there was a light demand for such fabrics during the week.

Importations of Dry Goods.

The importations of dry goods at this port for the week ending Oct. 21, 1880, and for the corresponding weeks of 1879 and 1878, have been as follows:

ENTERED FOR CONSUMPTION FOR THE WEEK ENDING OCT. 21, 1880.
